

1. IDENTIFICATION OF THE SUBSTANCE/MIXTURE AND THE COMPANY/ ORGANISATION

1.1 Product identification : **SOFT SEALING WAX - STICKS**

1.2. Relevant identified uses of the substance or mixture and uses advised against

Craft or industrial sector / Wax allowing the formation of a seal

1.3. Details of the supplier of the safety data sheet:

Company identification ETS ROZE
4 Av. des Coquelicots
PA des Petits Carreaux
94380 Bonneuil sur Marne - France

Telephone/fax: 00.33.1.48.83.06.04 / 00.33.1.42.83.55.38

1.4. Emergency call number: 112 or 15 in France

12. HAZARDS IDENTIFICATION

2.1. Classification of the substance or mixture

Classification according to the CLP (Classification, Labelling and Packaging) Regulation (EC Regulation number 1272/2008 and subsequent amendments)

Health hazards: Skin sensitisation - Category 1 - Warning (CLP: Skin Sens. 1) - H317

2.2. Labelling elements

Labelling according to EC Regulation number 1272/2008

Hazard pictogram : SGH07

Signal word : Attention

Hazard statement : H317 - May cause an allergic skin reaction

- Precautionary advice :
- : P261 - Avoid breathing dusts/fumes/gas/mists/vapours/aerosols
 - : P272 - Contaminated work clothing should not be allowed out of the workplace.
 - : P280 - Wear protective gloves/protective clothing/eye protection/face protection.
 - : P302 + 352: On contact with skin : Wash with plenty of soap and water.
 - : P333+313 - If skin irritation or rash occurs: obtain medical attention.
 - : P363 - Wash contaminated clothing before reuse.
 - : P321 - Specific treatment (see ... on this label).

Disposal considerations: P501: Dispose of this material and its container at a hazardous or special waste collection centre in accordance with local, regional, national and/or international regulations

2.3. Other hazards

This substance is not considered to be persistent, bio-accumulative and taxie (PBT) or very persistent with a high potential for bio-accumulation (vPvB). Oust explosion hazard

3. COMPOSITION/ INFORMATION ON COMPONENTS

Paraffin - Polymer resin - Rosin - Calcium carbonate - Ethylene co-polymer - Paraffin oil - Permitted contact dyes and food packaging.

Substances CAS number	EC registration number for REACH	EU number	Classification
Paraffin 8002-74-2	232-315-6		None
Polymer resin 24937-78-8			None
Rosin 8050-09-7	232-475-7		SGH07
Ethylene co-polymer 108-05-4	203-545-4		None
Calcium carbonate 1317-65-3			None

14. FIRST AID

4.1. First aid Description

In case of skin contact: wash quickly with cold water.
 In case of eye contact: wash with plenty of water to remove the product.
 In case of a more serious burn, keep under running water until assistance arrives.
 If swallowed: rinse mouth with water
 In case of excessive inhalation: place the subject at rest in the open air.
In all cases, if irritation persists, or if a lesion appears: consulta doctor

4.2. Most important symptoms and effects, both acute and delayed

None are currently known.

4.3. Indications for immediate medical attention and specific treatment

Treatment of symptoms

15. FIRE FIGHTING MEASURES**5.1. Extinguishing media**

Water spray - Foam, powder, carbon dioxide fire extinguishers.

5.2. Special hazards arising from the substance or mixture

In case of fire, release of hazardous combustion gases.

5.3. Advice for firefighters

Special protective equipment for firefighters: use self-contained breathing apparatus.

16. MEASURES TO BE TAKEN ON ACCIDENTAL RELEASE**6.1. Personal precautions, protective equipment and emergency procedures**

Wear a mask to avoid inhalation of dusts.

6.2. Precautions for environmental protection

Do not throw into the sewer, into water or onto the ground.

6.3. Methods and material for containment and cleanup

Scrape off excess wax, sweep and pick up carefully taking into account individual protective measures and specific risks mentioned.

6.4. Reference to other sections

Additional information see chapter 7

7. HANDLING AND STORAGE**7.1. Precautions to take for handling without danger**

Provide well-ventilated work premises. All equipment including ventilation systems must be earthed. Take measures to prevent the accumulation of electrostatic discharges, all equipment must be connected to the ground.

7.2. Conditions for safe storage, including any incompatibilities

Store in the original package away from heat and preferably at a temperature below 30 °C.

8. EXPOSURE CONTROL/PERSONAL PROTECTION**8.1. Control parameters**

Exposure limit values	Not available to date
DNEL/DMEL values	Not available to date
PNEC values	Not available to date

8.2. Exposure control

Observe the usual precautionary measures when handling chemicals: wearing protective glasses, gloves, dust masks and suitable work clothes is recommended.

9. PHYSICAL AND CHEMICAL PROPERTIES**9.1. Information on basic physical and chemical properties**

Physical state	Solid
Form	Rectangular Sticks
Hardness at 25 °C	23.1 (NFT standards 51-109)
Softening point	58 °C (according to NF T standard 76-106)
Flash point	250 °C
Solubilities	Insoluble in water - soluble in organic solvents.

9.2. Other information

Bulk density	Not determined
Density	Not determined

10. STABILITY AND REACTIVITY

10.1. Reactivity

The product is stable in its original closed packaging.

10.2. Chemical stability

Stable

10.3. Possibility of hazardous reactions

None if the product is handled and stored properly

10.4. Conditions to avoid

10.5. Incompatible materials.

10.6. Hazardous decomposition product

None if the product is handled and stored properly

11. TOXICOLOGICAL DATA

Oral and dermal toxicity: very low toxicity

Inhalative toxicity: may have sensitisation effects by inhalation.

Skin Irritation: may cause sensitisation by skin contact.

Irritation of the eyes: the possible fumes can irritate the eyes.

12. ECOLOGICAL DATA

12.1. Toxicity.

Toxicity to fish not known

Toxicity on algae not known

Toxicity to daphnia not known

Toxicity on bacteria not known

12.2. Persistence and degradability

the product is not bio-degradable.

12.3. Bio-accumulative potential

not determined

12.4. Mobility in soil

no known data

12.5. Results of PBT & vPvB assessments

no data available

12.6. Other adverse effects.

13. CONSIDERATIONS RELATING TO ELIMINATION

13.1. Waste treatment methods

Elimination of residues by incineration.

14. INFORMATION ABOUT TRANSPORT

The product is not classified as a hazardous material according to RIO, ADR, ADNR, IMDG and IATA-DGR.

15. REGULATORY INFORMATION

(According to Directives 67/548/EEC, 1999/45/EC and 2001/58/EC REACH EC number 1907/2006, EU number 453/2010 and EU number 848/2012)

15.1. Specific safety, health and environmental regulations/legislation for the substance or mixture

Unregulated product

15.2. Chemical safety assessment

The Chemical Safety Assessment (CSA) is not yet available for the substance or components of the preparation described for this product.

16. OTHER INFORMATION

The information contained on this sheet is based on the state of our knowledge of the product concerned, on the date indicated. It is given in good faith. The user's attention is drawn to the risks of using a product for purposes other than those for which it is designed.

This information does not exempt the user from knowing and applying all the texts regulating their activity. The user bears sole responsibility for the precautions linked to the use which they make of the product. We make no warranty, express or implied, as to the accuracy, adequacy, quantity or absence of any defect and assume no liability in connection with the use of the information provided.
