

Quick-change insert

With safety coupling

ORION[®]

Application:

For quickly changing screw taps without having to use a wrench. Quick-change inserts with safety friction clutch are used to prevent tool breakage caused by overload.

Execution:

- Precise quick-change insert with adjustable and almost wear-free ball safety coupling for protection against damage when tool becomes blunt or comes into contact with bottom of the hole.
- Inserts with safety friction clutch come with preset torque values for machining steel up to 800 N/mm².
- For blind holes.

Advantage:

- Increased tool service life.

Delivery:

1x quick-change insert with safety clutch.

Art. no.	21566 140
Brand	ORION
Manufacturer Part Number	21566 140
Shank diameter	8 mm
Square shank on screw tap	6.2
Outer diameter	32 mm
Collar width	25 mm
Diameter	19 mm
Gross Weight	0.153 kg
Product Group	295
