

abrasive flap disc for stainless steel/steel

made of zirconia alumina, tool carrier made of glass fabric, angled shape

ORION®

Application:

for deburring, removing rust, fettling and for preparatory and finishing work on weld seams.

Advantage:

- attractively-priced abrasive flap disc with good cutting performance
- with OSA approval – greater safety due to regular independent product tests

Art. no.	76084 919
Brand	ORION
Manufacturer Part Number	76084919
Washer diameter	115 mm
Grid size	80
Bore diameter	22.23 mm
Material of abrasive medium	Zirconium conrundum
Form	Diagonal
Number of pieces per packet	10
Gross Weight	0.075 kg
Product Group	6LH

EAN

4053625406470
