

Ergonomic Cable Tie Installation Hand Tools

Comfort, Performance and Durability

Panduit's ergonomic series of hand-operated, tool-controlled tension, and cut-off cable tie installation tools are the most preferred hand-operated tools in the industry. These versatile tools can be used for production, maintenance, or construction applications.

The ergonomic series of tools is excellent for low to medium volume applications (under 50,000 ties/year) and promote worker safety, help reduce downtime, improve productivity and provide the lowest total installed cost.

Impact Resistant Resin Tools

- **GTS-E** Tool installs subminiature (8 lbs.) through standard (50 lbs.) cross section cable ties
- **GTH-E** Tool installs standard (50 lbs.) through heavy (175 lbs.) cross section cable ties

Metal Resin Tools

- **GS2B-E** Tool installs subminiature (8 lbs.) through standard (50 lbs.) cross section cable ties
- **GS4H-E** Tool installs standard (50 lbs.) through heavy (175 lbs.) cross section cable ties
- **GS4EH-E** Tool installs light-heavy (120 lbs.) through extra-heavy (250 lbs.) cross section cable ties

Key Features and Benefits

- **Improved cable tie cut-off mechanism that minimizes the impact to the installer's hand by more than 40% - the lowest in the industry**
- **Low handle force required to cut-off the cable tie - 15% lower handle force than comparable tools**

Cable Tie Installation Hand Tools – Comfort, Performance and Durability

To change the tension setting, pull back the Tension Adjustment Knob, match it to the appropriate cable tie cross section tension setting, and disengage the knob.

Easy to read Tension Setting Label eliminates guesswork.
