

Part of Ant Group Ltd

ESD Floor Tape - Printed

Features:

- Adheres well to most surfaces
- Highly visible
- ESD logo as per EN 61340-5-1
- 75mm width x 33m length

- This self adhesive tape is suitable for marking the boundaries of ESD protected areas.
- It adheres very well to synthetic floors such as PVC tiles. The tape will also adhere to concrete floors and can be expected to remain intact for several months depending on traffic.
- The tape is yellow and printed in black with the ESD logo as per EN61340-5-1 and the text 'ESD Protected Area'.
- The carrier tape is laminated with a clear film to protect the print. The tape is not antistatic as it is intended for use outside the EPA.
- The tape is a highly visible identification of the boundaries of an EPA.
