

Torque multiplier

Max. output torque 1800 to 5000 Nm

Application:

For extremely high torques or stiff screw connections, using a torque wrench.

Execution:

- Planetary gear with hardened cogs
- Protected against overload via torsion pin
- Compact design and lightweight

Advantage:

- No need for an extremely long lever; risk of injury is reduced to a minimum

Delivery:

Torque multiplier, slanted support, spare torsion pin, setting table, operating instructions - all in a robust plastic case with foam inlay.

Art. no.	52291 038
Brand	CARL WALTER
Manufacturer Part Number	000000031040
Max. output torque	3800 Nm
Max. input torque	290 Nm
Transmission ratio	1:13
Drive	3/4 inch
Tip size	1 inch
Response arm form	Cranked
Weight	5.2 kg
Gross Weight	10.700 kg
Product Group	534
