

# ATP Thermal Printer

Adam Equipment's ATP thermal printer is compact and ideally suited for use with Adam balances and scales.

Simple-to-use features combined with quick set-up makes for a truly versatile printer. A single positive push-button feed key and three easy-to-read LED indicators make operation simple.

Combined with the compact design, which takes little space on the bench, this makes the ATP the right choice for any printing applications.

With nearly 40 years of experience in the production of scales and balances and their accessories, you can trust Adam for quality products that offer a range of features designed for many different applications.
