Subject: TDK Part Number Change Notice - Ferrite Chip Beads

Dear Distribution Partner

You are in receipt of the following message as you are listed in our system to be the coordinator for EOLs and PCNs concerning TDK products.

In order to establish a global part number standard, we are changing the part numbers of certain "Ferrite Chip Beads" as listed in the attached file.

Our nomenclature is changing from "Short Format" to "Extended format with Internal Ending Codes".

EXAMPLE: MMZ1608R301C => MMZ1608R301C**TA00**

Please understand that the items listed are NOT discontinued. Only the part numbers have been modified.

Please reference slides 5 through 7 of the attached PDF as an aid to understanding the new nomenclature.

[attachment "Ferrite Beads Part Number Change Notice - to Distributor and Representatives 10-17-2014.xlsx" deleted by Mike Tumminaro/Mount Prospect/TCA/TDK-US] [attachment "Ferrite Bead Part Number Change Descriptions, 10-8-2014.pdf" deleted by Mike Tumminaro/Mount Prospect/TCA/TDK-US]

Please post these changes in your system and on your web site.

You may begin using the new part numbers immediately for new orders placed.

Thank you, as always, for your support
