# Quality and experience for over 60 years

## Quality and innovation

For over 60 years, this claim has accompanied our family business in the development of new products. Millions of products sold every year oblige us to set high standards for design and function. Quality and safety are our top priorities, and this on an international level.

The success story of the brennenstuhl® Group began in 1958. Since then we have grown continuously and are now one of the world's leading companies in the field of electronics and electrical engineering. Our market success is based on a constant stream of new ideas which we turn into innovative products in close cooperation with our customers.

Numerous national and international patents protect these innovations and prove our technical lead. Decades of experience and the high standards we set ourselves guarantee the first-class quality of brennenstuhl® products.

## Company locations

**Hugo Brennenstuhl GmbH & Co. KG**

# High-quality, innovative products

## Made in Germany

At brennenstuhl®, „Made in Germany“ stands not only for outstanding quality and safety, but also for the origins of the family-owned company.

This is the constantly growing location in the university town of Tübingen - this is where products and product innovations are developed, manufactured and tested under high standards in the company's own quality management.

Founded as a family business, brennenstuhl® is now an internationally active and well-known brand. The wide range of products is known in over 100 countries. „Made in Germany“ or „Engineered in Germany“ therefore underline our claim to careful workmanship and high-quality products.

## Manufacturer's guarantee

brennenstuhl® offers a manufacturer's warranty of 3, 5 or 10 years from the date of purchase on labelled products (please keep the receipt as proof).

The guarantee only applies to material or manufacturing defects when the respective product is used properly.

The guarantee expires in the event of third-party intervention. Legal rights are not restricted by this guarantee. Batteries, rechargeable batteries and lamps supplied with the product are excluded from the manufacturer's warranty.

# Overvoltage & Surge Protection

**Protects valuable electrical equipment from overvoltage and high power surges.**

## Overvoltages

are all voltages that briefly exceed the limit of the mains voltage. Overvoltages can for example be caused by impulses from powerful engines, welding equipment or other large electrical equipment. The most dangerous cause is the extremely high voltage spike generated by an indirect lightning strike. Without effective protection in place these overvoltages can destroy sensitive electronic components in the circuits of these devices and spell the end for unprotected electrical appliances.

## Surges

also enter the power grid through indirect lightning in enormous currents, reach computer systems, home entertainment and hi-fi equipment and destroy these devices without appropriate protection.

## Surge Protection Devices

such as varistors and gas discharge tubes are important components that can short dangerous overvoltages to earth in a split second to prevent destructive spikes from reaching the protected equipment.

## Insurance for connected devices

brennenstuhl® warrants the performance of its overvoltage and lightning protection products to the specifications listed on a product's rating plate. Provided the products were used properly, brennenstuhl® will repair or replace all devices directly connected to the overvoltage and lightning protection product if it can be verified that they were damaged by overvoltage and if the following conditions are met: The damage must be the result of a failure of the product's protective function as stated in the specifications.

The insurance covers personal injury and damage to property up to a maximum of 5 million euros within the context of product liability.

## Quickly and easily recharged

### Free sockets due to integrated USB charger

Smartphones, tablets, cameras, powerbanks and the like regularly require energy and need to be recharged. In modern households, countless power supplies and cables are often used to satisfy this energy demand. This often takes up sockets that could actually be used for other purposes, and sockets become a scarce commodity.

Products with integrated and powerful USB chargers offer the solution for free sockets and easy charging.

### Fast, Faster, Power Delivery.

The fastest way to a full battery. Thanks to USB Power Delivery technology, devices can be charged up to 70 % faster and safely with the intelligent power supply.

### Benefits of Power Delivery

**Extreme speed**

**Intelligent power supply**

**Secure and unified**

# PREMIUM-ALU-LINE

## Extension Lead

The Premium-Alu-Line extension lead impresses with its quality and safety in all areas. It is ideal for offices, industry, crafts, private use around PCs, printers, modems, etc. It not only has protection against contact, but also convinces with the following features:

## Product Overview

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Earthed sockets

in a 80° arrangement, ideal for angular plugs. With protection against contact.

### High quality design

Elegant, sleek, timeless, high-quality design.

### High quality connection cable

High-quality cable with earthed plug.

### Aluminium housing

Sturdy housing made from aluminium with hardwearing, matt-finished surfaces.

### Practical cable holder

With option to wind the cable around the rail for storage.

## Available Product Features

### USB-Charger

USB charging units for fast charging of empty battery devices such as smartphones, tablets, headphones, etc.

### Safety Fuse Button

Advanced "fuse button reset function" eliminates time consuming plug fuse replacement. Simply resettable in case of overload.

### Multiple switchable sockets

By means of different switching groups with multiple illuminated safety switches, groups of sockets can be switched on or off separately and independently of each other.

# EXTENSION LEADS WITH/WITHOUT SURGE PROTECTION

High-End Extension Leads with/without Surge Protection

## Premium-Alu-Line FB Technics Extension Lead with Safety Fuse Button

with USB-Charger and “easy reset function” in case of overload

Extra H/D cable 3G1.5 mm<sup>2</sup> for high product safety.

- Advanced “fuse button reset function” eliminates time consuming plug fuse replacement. Simply resettable in case of overload.
- Attractive, timeless, sturdy housing made from aluminium with hardwearing, matt-finished surfaces.
- Hole suitable for hanging.
- Wall-mounting holes.
- Innovative and individual fixture system.
- 2 USB-charging units.
- Total charging amperage of max. 3100 mA for quick reload.
- Earthed sockets in a 80° arrangement.
- Excess cable can be wound around the housing.
- Extra robustness.
- Sockets with increased touch protection.
- Illuminated 2-pole ON/OFF safety switch.
- Packaging: Shrink-wrapped - for protection against dust and contamination.

# OFFICE-LINE

## Extension Lead

The Office-Line extension lead impresses with its quality and safety in all areas. It is suitable for connecting IT/video and audio equipment directly on the desk.

It not only has increased protection against accidental contact, but also impresses with the following features:

## Product Overview

### High quality design

Elegant, sleek, timeless, high-quality design.

### Earthed sockets

in a 80° arrangement, ideal for angular plugs. With protection against contact.

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Innovative stand

Comfortable to directly plug-in and switch-on the desk.

### High quality housing

Sturdy housing made from aluminium with hardwearing, matt-finished surfaces or durable special synthetic material.

### Practical cable holder

Plugged-in cables are routed directly behind the strip and fixed in place by a rail made of aluminium.

### High quality connection cable

High-quality cable with earthed plug.

## Available Product Features

### USB-Charger

USB charging units for fast charging of empty battery devices such as smartphones, tablets, headphones, etc.

### Safety Fuse Button

Advanced "fuse button reset function" eliminates time consuming plug fuse replacement. Simply resettable in case of overload.

## Alu-Office-Line Extension Lead

- Elegant, ageless desktop design made from aluminium with unsusceptible, matt-finished surface.
- Conceived cable routing and easy operation.
- Comfortable to directly plug-in and switch-on the desk.
- Earthed sockets in a 80° arrangement, ideal for angular plugs.
- Illuminated 2-pole ON/OFF safety switch.
- Sockets with increased touch protection.
- Packaging: Shrink-wrapped - for protection against dust and contamination.

# PREMIUM-LINE

## Extension Lead

The Premium-Line extension lead impresses with its quality and safety in all areas. Its robust and designed to be the best and made of break-resistant special plastic material.

It's protected against contact and has the following properties too:

## Product Overview

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Earthed sockets

in a 80° arrangement, ideal for angular plugs. With protection against contact.

### High quality design

Elegant, sleek, timeless, high-quality design.

### High quality connection cable

High-quality cable with earthed plug.

### Highly break-proof

Robust extension leads, designed to be the best and made of break-resistant special plastic material.

### Practical cable holder

With option to wind the cable around the rail for storage.

### Innovative mounting system

For easy and trouble-free mounting with practical hanging facility.

## Available Product Features

### Surge Protection

Protection for your appliance from malfunctions in the mains, such as surges, indirect lightning strikes or circuit noises, with a maximum sum of leakage current of up to 60.000 A.

### Safety Fuse Button

Advanced "fuse button reset function" eliminates time consuming plug fuse replacement. Simply resettable in case of overload.

### USB-Charger

USB charging units for fast charging of empty battery devices such as smartphones, tablets, headphones, etc.

# EXTENSION LEADS WITH/WITHOUT SURGE PROTECTION

## High-End Extension Leads with/without Surge Protection

### Premium-Line 60.000 A Extension Lead With Surge Protection

- Protection for your equipment against disturbances in the power grid, such as surges, indirect lightning strikes or line noise, with a maximum sum of leakage currents up to 60,000 A.
- Intelligent, exchangeable module construction system.
- Safety switch illuminated, two-pole on/off.
- Innovative mounting concept allows the socket strip to be mounted on the wall or attached to the table leg.
- Sockets with increased protection against accidental contact.

#### Premium-Line surge-protection extension lead with USB

- 2 USB charging sockets
- Total charging current max. 3.1 mA for fast charging

# ALU-LINE

for Network & Server Cabinet

## Alu-Line

The extension leads for network and server cabinets impress with their quality and safety in all areas and are ideal for installation in 19" network or server cabinets in various versions with additional features:

## Product Overview

### High quality connection cable

High-quality cable with earthed plug.

### High quality

Shapely, timeless and stable housing made of aluminium with insensitive, matt anodised surface.

### For the IT area

With IEC plug C14 and IEC sockets C13.

### Installation size

19" wide and 1 HU tall.

## Alu-Line 19" Extension Lead For Cabinets

19" wide and 1 HU tall.

- For installation in 19" network or server cabinets.
- Robust extension sockets, designed to be the best and made of aluminium.
- 12x IEC sockets C13.
- IEC plug C14.

## Extension Leads for Fixed Installation

### Retractable Extension Leads

The completely retractable extension leads are suitable for permanent installation at the workplace, in the kitchen or home workshop and impress with their quality and safety in all areas.

They blend discreetly into the table surface for flexible workplace design. They also have protection against contact.

### Available Product Features

### USB-Charger

USB charging units for fast charging of empty battery devices such as smartphones, tablets, headphones, etc.

### Tower Power Pop-Up Extension Lead

Retractable desk outlet for permanent installation. Installs flush with the desktop. Suitable for office, kitchen, workshop, etc.

- Innovative desk outlet for flexible workspace design.
- Retracts completely into the desktop.
- Stylish and robust aluminium housing.
- Slim design.
- Quick and easy to install, 60 mm bore diameter.
- Power indicator.
- Earthed sockets in a 90° arrangement.
- Sockets with increased touch protection.

# brennenstuhl® ESTILO

## Design Extension Leads for modern living

The kitchen has too few sockets or there is no socket within reach from the sofa? The home can be stylishly equipped with useful multiple plugs that convince not only in their function, but above all in their design.

With the brennenstuhl®estilo design extension leads, power is always available without compromising a stylish and modern interior.

### Extension Lead in a special design

The ever-increasing number of small electrical helpers in the house puts us in the situation of needing more and more sockets. Even in places where no wall socket is available at the moment. All brennenstuhl®estilo gadgets for power distribution bring not only

power, but design and order to modern living. The multiple plugs serve the user in different ways. What they all have in common, however, is design, functionality and quality.

 **ENGINEERED  
IN GERMANY**

 **USB  
CHARGER**

# brennenstuhl® estILO

## Corner Extension Lead with USB-Charger

The exclusive design of the brennenstuhl® estILO corner extension lead immediately catches the eye. With its USB ports and earthed sockets, it can be used practically anywhere. Whether in the office, on a sideboard or in the kitchen, the extension lead with stainless steel finish is an eye-catcher. Thanks to the fit and the strong adhesive pads, it can be mounted horizontally or vertically in any corner and position without drilling.

# hugo!

## Surge protection Extension Lead

The hugo! extension lead has a high-quality surge protection with function display. Its elegant and sturdy housing is made of polished, highly break-resistant polycarbonate.

It not only has protection against contact, but also impresses with the following features:

## Product Overview

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Stylish, cool

Shapely and stable enclosure due to polished, highly break-proof polycarbonate.

### Earthed sockets

in a 90° arrangement, ideal for angular plugs. With protection against contact.

### High quality connection cable

High-quality cable with earthed plug.

### Surge Protection

Protection for your appliance from malfunctions in the mains, such as surges, indirect lightning strikes or circuit noises, with a maximum sum of leakage current of up to 19.500 A.

## Available Product Features

### Surge Protection

Protection for your appliance from malfunctions in the mains, such as surges, indirect lightning strikes or circuit noises, with a maximum sum of leakage current of up to 19.500 A.

## Hugo! 19.500 A Extension Lead With Surge Protection

- Protects expensive devices from overloads with a max. surge current of up to 19.500 A.
- Optical function display for overload protection.
- Shapely and stable enclosure due to polished, highly break-proof polycarbonate.
- Illuminated 2-pole ON/OFF safety switch.
- With widely spaced sockets positioned at a 90° angle.
- Sockets with increased touch protection.

# PRIMERA-LINE

## Extension Lead

The Primera-Line extension lead impresses with its quality and safety in all areas. It not only has increased protection against accidental contact, but also impresses with the following features:

## Product Overview

### High quality connection cable

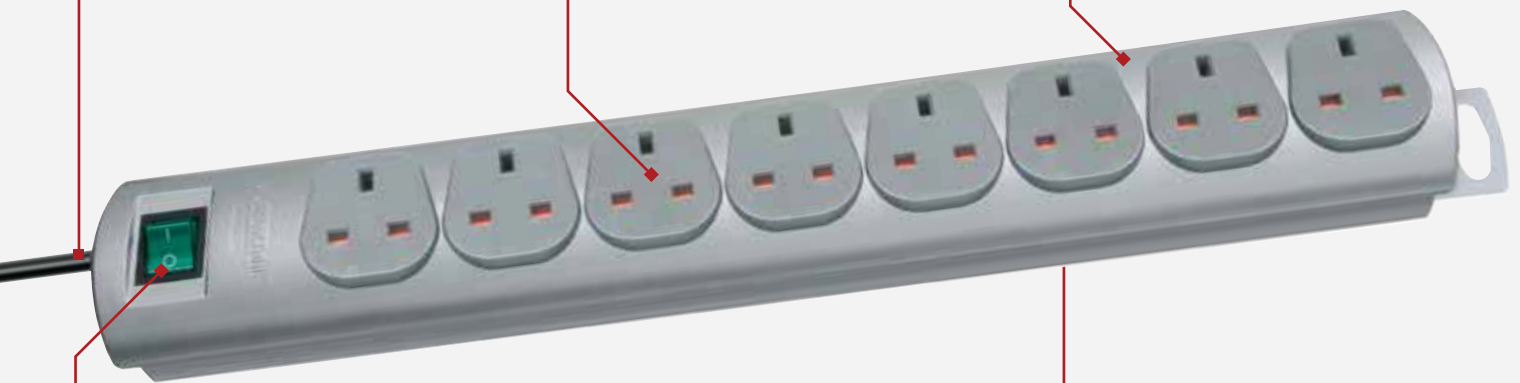

High-quality cable with earthed plug.

### Earthed sockets

in 90° arrangement, ideal for right-angle plugs. With protection against contact.

### Practical design

Shapely and stable enclosure, highly break-proof polycarbonate.

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Variable cable output

Optional on both sides with cable clip for the storage of surplus cable.

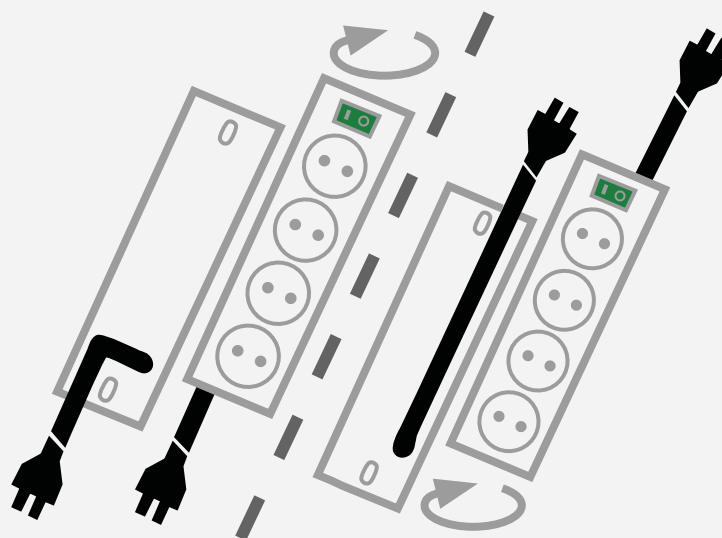

### Primera-Line Extension Socket

- With cable clip for the storage of surplus cable.
- Option of variable cable output on both sides.
- Sockets arranged at 90° angles.
- Convenient spacing of the sockets.
- With mounting facilities for wall installation.
- Packaging: Shrink-wrapped - for protection against dust and contamination.

# SUPER-SOLID

## Extension Lead

The Super-Solid extension lead impresses with its quality and safety in all areas. With the cable entry opposite the switch, operation is made easier, e.g. under the desk.

It not only has protection against contact, but also impresses with the following features:

## Product Overview

### High quality connection cable

High-quality cable with earthed plug.

### Earthed sockets

in a 90° arrangement, ideal for angular plugs. With protection against contact.

### Practical operation

with the cable inlet opposite the switch.

### Practical design

Shapely and stable enclosure, highly break-proof polycarbonate.

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

## Available Product Features

### Safety Fuse Button

Advanced "fuse button reset function" eliminates time consuming plug fuse replacement. Simply resettable in case of overload.

## Super-Solid-Line FB Extension Socket With Safety Fuse Button

and "easy reset function" in case of overload

Extra H/D cable 3G1.5 mm<sup>2</sup> for high product safety.

- Extremely sturdily constructed extension socket made from highly break-resistant polycarbonate.
- With illuminated 2-pole ON/OFF switch.
- Earthed sockets in a 90° arrangement, for angled plugs as well.
- The distance between the sockets allows the use of large charger units.
- With practical hanging facility.
- With increased touch protection.
- Special feature: cable output is fitted opposite the switch. Therefore, no surplus cable e.g. on the desk.
- Rubber pads prevent extension socket from slipping.

# ECO-LINE

## Extension Lead

The Eco-Line extension lead impresses with its quality and safety in all areas. It not only has increased protection against accidental contact, but also convinces with the following features:

## Product Overview

### Illuminated switch

Illuminated 2-pole ON/OFF safety switch.

### Standard Extension Lead

In attractive colours and of exceptional quality.

### High quality connection cable

High-quality cable with earthed plug.

### Earthed sockets

in a 90° arrangement, ideal for angular plugs.  
With protection against contact.

## Available Product Features

### Surge Protection

Protection for your appliance from malfunctions in the mains, such as surges, indirect lightning strikes or circuit noises, with a maximum sum of leakage current of up to 13.500 A.

### External hand/foot switch

Switch electronic devices on and off with the convenient external hand/foot switch while the extension lead remains hidden behind your desk or a cabinet.

## Eco-Line Comfort Switch Extension Lead

- For easy and comfortable on/off switching of all electrical appliances connected by the external foot-operated switch, while the extension lead remains invisible under the desk or behind the cupboard.
- Robust foot switch with control light.
- Safe and energy efficient through 2-pole disconnection.
- 1.5 m flexible control cable to the external foot switch.
- 2 m loadable mains cable.
- Max. load 3120 W/13 A.
- Sockets with increased touch protection in a practical 90° arrangement.

### Travel Adapter Earthed/GB

Adapter enabling electrical equipment using an earthed socket system to be used in countries with the British plug system.

- This travel adapter is not a transformer or a frequency converter.
- Socket with increased touch protection.
- With 13 A fuse.

#### TECHNICAL DATA

Product number	1508533
EAN	4007123189717
UP	5
Max. Power	13 A
Nominal input voltage	240 V
Colour	black

### Travel Adapter GB/Earthed

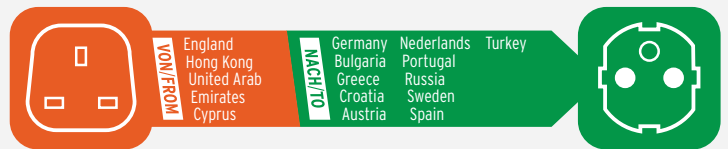

Adapter enabling electrical equipment using the British plug system to be used in countries using an earthed socket system, e.g. DE, FR, BE, PL, NL, ES, PT, SE, FI, NO, GR, TR, AT ...

- This travel adapter is not a transformer or a frequency converter.
- Socket with increased touch protection.

#### TECHNICAL DATA

Product number	1508530
EAN	4007123170739
UP	5
Max. Power	13 A
Nominal input voltage	240 V

# International Protection Classes

nach  
**DIN EN 60529**  
(IEC 60529 / VDE 0470-1)

**IP** Code letters  
International Protection

**5** First index figure  
Foreign bodies protection

**4** Second index figure  
Water protection

<b>0</b>	No protection against accidental contact, no protection against solid foreign bodies
<b>1</b>	Protection against contact with any large area by hand and against solid foreign bodies with $\varnothing > 50$ mm
<b>2</b>	Protection against contact with the fingers, protection against solid foreign bodies with $\varnothing > 12,5$ mm
<b>3</b>	Protection against tools, wires or similar objects with $\varnothing > 2.5$ mm, protection against solid foreign bodies with $\varnothing > 2.5$ mm
<b>4</b>	As 3, but $\varnothing > 1$ mm
<b>5</b>	Full protection against contact, protection against interior injurious dust deposits
<b>6</b>	Total protection against contact, protection against penetration of dust

<b>0</b>	No protection against water
<b>1</b>	Protection against vertical water drops
<b>2</b>	Protection against diagonal water drops (up to a 15° angle)
<b>3</b>	Protection against diagonal water drops (up to a 60° angle)
<b>4</b>	Protection against splashed water from all directions
<b>5</b>	Protection against water (out of a nozzle) from all directions
<b>6</b>	Protection against ingress of water in case of powerful water-jets
<b>7</b>	Protection against ingress of water in case of temporary immersion
<b>8</b>	Protection against ingress of water in case of continuous immersion, requirements under agreement of user and manufacturer

## Protection Classes Examples:

- |  |   |   |
|--|---|---|
|  <b>IP 20</b> Protected against access to hazardous parts with a finger            |  <b>IP 54</b> Dust-protected and protected against splashing water     |  <b>IP 65</b> Dust-tight and protected against water-jets                    |
|  <b>IP 40</b> Protected against foreign bodies of 1 mm and greater                 |  <b>IP 55</b> Dust-protected and protected against water-jets          |  <b>IP 67</b> Dust-tight and protected against temporary immersion in water  |
|  <b>IP 44</b> Protected against foreign bodies of 1 mm and against splashing water |  <b>IP 56</b> Dust-protected and protected against powerful water-jets |  <b>IP 68</b> Dust-tight and protected against continuous immersion in water |

### Circuit Breaker Plug-in Adapter BDI-A 30 (RCD)

Transferable adapter, protects users of power tools, domestic appliances, etc. against electrical hazards.

- Provides effective protection against electric shocks. Instantly disconnects the live lead from the mains as soon as residual current is present.
- 2-pole cut-out.

#### TECHNICAL DATA

Product number	1290633
EAN	4007123593804
UP	1
Type of residual current	Type A
Plug system plug	Type G (GB)
Max. current carrying capacity	13 A
Nominal residual current	30 mA

### Circuit Breaker Plug BDI-S 30 (RCD)

The ideal safety circuit breaker for connection to frequently used electrical appliances.

- Provides effective protection against electric shocks. Instantly disconnects the live lead from the mains as soon as residual current is present.
- 2-pole cut-out.
- For 3G1.5<sup>2</sup> cable.

#### TECHNICAL DATA

Product number	1290643
EAN	4007123593828
UP	1
Type of residual current	Type A
Plug system plug	Type G (GB)
Max. current carrying capacity	16 A
Nominal residual current	30 mA

### Primera-Line Cable Box

- Compact design, for comfortable handling.
- Practical carrying handle.
- Variable use, standing or flat.
- Robust, rigid construction.
- With 3-way socket outlet 13 A BS with self-closing cover providing protection against dust and contamination.
- With thermal cut-out protection against overheating.

#### TECHNICAL DATA

Product number	1095453
EAN	4007123598212
UP	2
Cable length	10 m
Cable designation	H05VV-F 3G1,5
Cable quality	PVC
Cable colour	black
Plug system plug	Type G (GB)
Max. current carrying capacity	13 A
Colour	black/light grey

### Vario-Line Cable Box with USB-Charger

- Housing made of break-resistant plastic.
- Practical carrying handle.
- Twin feet ensure excellent stability.
- 2 earthed sockets with self-closing covers.
- 2 USB charging sockets, dust- and dirt-protected.
- Total charging amperage of max. 2100 mA for quick reload.
- With safety cut-out.
- Sockets with increased touch protection.

#### TECHNICAL DATA

Product number	1108563600

## Key to cable quality

**H 0 5 V V - F 3 G 1, 5**

1 2 3 4 5 6 7 8

### 1 DEFINITION

H = Harmonised cable  
A = Other nationally cable

### 2 NOMINALE VOLTAGE (VOLT)

03 = 300 / 300 V  
05 = 300 / 500 V  
07 = 450 / 750 V

### 3 ISOLATING SHEATH

V = PVC  
V3 = PVC, cold-resistant to -35 °C  
R = Natural or synthetic rubber  
S = Silicone rubber  
B = Synthetic rubber

### 4 OUTER SHEATH

V = PVC  
V3 = PVC, cold-resistant to -35 °C  
R = Natural or synthetic rubber  
N = Neoprene  
J = Glass fibre  
T = Textile  
Q = Polyurethane

### 5 CABLE TYPE

U = Round, single-wire cable  
R = Round, multi-wire cable  
K = Fine wire for permanent installation  
F = Fine wire for moveable cables  
H = Extremely fine wire for moveable cables  
Y = Tinsel wire

### 6 NUMBER OF WIRES

### 7 PROTECTED CABLES

G = With green-yellow wire  
X = Without green-yellow wire

### 8 DIAMETER OF CABLE CORE in mm<sup>2</sup>

### 9 SPECIAL SHAPES/CABLE NAME EXTENSIONS

AT = Country-specific standard for Austria  
K35 = Cold-resistant to -35 °C

## BREMAX<sup>®</sup>-PUR (BQ cable)

**For long-term outside use.**

Highly resistant to abrasions, crushing, UV light, cutting and tearing. Acid-proof, oil-resistant, wheaterproof and micro-resistant. Temperature-resistant down to -40 °C. Polyurethane outer sleeve.

## RN cable

**For long-term outside use.**

Resistant against oils and acids. Inner wire coating made of natural or synthetic rubber. Outer cable casing made of neoprene. Approved to exacting site standards as per VDE 0100 part 704.

## BREMAX<sup>®</sup> (V3V3 cable)

**N07: For outside use.**

**N0S: For temporary outside use.**

High mechanical loading capacity. Applicable down to -35 °C. Oil- and UV- resistant and highly abrasion-resistant. Outer cable casing made of highly flexible special plastic.

## RR cable

**For normal use in dry conditions and for temporary outside use.**

Inner wire coating and outer cable casing made of synthetic rubber.

## VV cable (IP44)

**Temporary and time-limited outdoor use.**

For medium mechanical stress. With insulated inner wire coating and outhter cable casing made of flexible PVC.

## VV cable

**For normal use in dry conditions.**

For medium mechanical stress. With insulated inner wire coating and outhter cable casing made of flexible PVC.

## Extension Cable

For home and office.

- With plug and socket 13 A BS.

# GARANT® / GARANT® S

## Cable Reels

The Garant® cable reel convinces with its quality and safety in all areas. The cable reel with its different versions and equipment is suitable for every area of application, from use on the construction site to use around the house. It convinces with the following features:

## Product Overview

### Practical handle

In different versions for perfect cable routing when rolling up and down.

### High quality cable

High-quality cable in various lengths, cross-sections and conductors.

### Tube frame

A stable and robust support frame (galvanised) for a perfect and safe stand.

### Earthed sockets

Earthed socket outlets with or without self-closing protective caps.

### Thermal cut-out protection

against overheating.

### Rotary handle

A twist handle for comfortable and easy reeling of the cable.

### Reel body

Reel body made from break-proofed special plastic or rust-resistant and galvanised sheet steel.

## Available Product Features

### Cablepilot

Perfect cable-management during winding. Handle commutes on bothsides and allows easy carrying and cable storage. For right and left handed easy to rewind.

### USB-Charger

USB charging units for fast charging of empty battery devices such as smartphones, tablets, headphones, etc.

### Bretec® rotary contact

With Bretec® rotary contact technology the reel body turns, and the drum centre stays still. This special system allows winding without twisting, even with connected appliances.

### Garant® CEE 2 IP 44 Camping/Maritime Cable Reel

For camping and permanent outdoor use, IP44.

- Reel body made from special plastic fitted to a galvanised steel tube frame.
- Innovative and ergonomic cable guide handle "cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- RN cable is very robust, oil resistant and especially suited for professional use and on site.
- Cables in signal colour orange, helpful to prevent potential tripping hazards.
- CEE plug 230 V/16 A,
  - 2 CEE sockets 230 V/16 A.
- With single pole safety cut-off and overheating protection.

Cable colour	orange
Plug system plug	CEE 16A 2P+E (3p) 230V
Reel diameter	290 mm

### Garant® G CEE 3 IP 44 Camping/Maritime Cable Reel

For camping and permanent outdoor use, IP 44.

- CEE angle coupling 230 V/16 A including earthing contact combination socket 230 V with self-closing caps + 230 V/16 A CEE plug.
- Extension cable reel with plug and coupling.
- Innovative and ergonomic cable guide handle "cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- Rotary handle for comfortable rolling up.
- Reel body made from special plastic fitted to a galvanised steel tube frame.
- Belt fixation for effortless winding and unwinding of the cable.
- The RN cable is very robust, oil-resistant and particularly suitable for professional use.
- Cables in signal colour orange, helpful to prevent potential tripping hazards.
- Thermal cut-off protection, indicator shows overheating or overloading.

# CABEL REELS • CABLE BOXES

## Extension Cable Reels

### Garant® G Cable Reel

For mobile working with electrical garden tools.

- Reel body made from special plastic fitted to a galvanised steel tube frame.
- Ergonomic cable guide handle for perfect cable-management during winding.
- With rubber socket 240 V.
- With thermal cut-out protection against overheating.
- E.g. for use when operating lawn mowers, hedgecutters, electric strimmers, trimmers etc. when working at height, or carrying out work across a large area.
- For mobile working of a large radius, reel remains next to the power source connected to.

#### TECHNICAL DATA

Cable colour	black
Reel diameter	240 mm
Plug system plug	Type G (GB)
Max. current carrying capacity	13 A

With Bretec® non-turning socket system. Socket outlet remains stationary while reel body rotates. Prevents the cable or appliances connected from twisting while winding.

### Garant® Bretec® Cable Reel

With the unique Bretec® Anti Cable Twist System for comfortable working.

- No more dangerous twisting of connected appliances when winding or unwinding.
- Reel body made from special plastic fitted to a galvanised steel tube frame.
- Innovative and ergonomic cable guide handle "cable pilot" for perfect cable-management during winding. Handle commutes on both sides and allows easy carrying and cable storage. For right and left handed easy to rewind.
- Rotary handle for comfortable rolling up.
- With 3-way socket outlet 13 A BS with self-closing cover providing protection against dust and contamination.
- With thermal cut-out protection against overheating.

### Garant® 110 V CEE 2 Cable Reel

Top in quality and design, for every requirement and use.

- Reel body made from special break-resistant Brefflex rubber fitted to a galvanised steel tube frame.
- With twin socket 110 V/16 A.
- Ergonomic cable guide handle for perfect cable-management during winding.
- With thermal cut-out protection against overheating.

## POWER DISTRIBUTORS

### Power Distributors

### Hanging Workshop Power Distributor

A height-adjustable power distributor with suspension facility.

- Housing made of break-resistant plastic.
- With double-sided, triple socket outlet 13 A BS and a hook for large tools.
- 3 m galvanised steel chain for hanging.
- With thermal cut-out protection against overheating.
- 5 m connecting cable.

### Automatic Rewind Cable Reel

Convenient automatic rewind.

- For fitting on walls and ceilings.
- Slewable up to 180°.
- Robust plastic housing.
- With safety cut-out.
- Socket with increased touch protection.
- For safe storage of the cable after use.

#### Automatic Rewind Cable Reel with RN cable:

- Rubber-neoprene (RN), robust, oil-resistant and especially suited for professional use.

## EXTENSION CABLES

Extension Cables

### BREMAXX® CEE Extension Cable IP 44

Practical and suitable for outdoor use, IP 44.

- The BREMAXX®-cable is extremely sturdy, applicable down to -35°C, oil- and UV-resistant and highly abrasion-resistant.
- Excellent abrasion resistance.
- High-quality, impact-resistant CEE plug and CEE coupling with cap.

The brennenstuhl®Connect system with intelligent, network-capable WiFi products lend intelligence to normal sockets or connected devices with their technology. The WiFi products are used as intelligent intermediate plugs.

The connected devices can be easily operated by voice control with **Amazon Alexa** or **Google Assistant**.

Integrated into a smart system, the WiFi products effectively support energy management, enable automatic, time-controlled switching of connected electrical appliances and optimise power consumption.

The WiFi products work without an additional hub or gateway. A normal WLAN router and the free **brennenstuhl®Connect app** are all that is needed to operate the WiFi products, which can be set up and configured quickly and easily.

The WiFi products are compatible with routers of any brand. When connecting, you only have to make sure to select the 2.4 GHz and of the router. The 2.4 GHz corresponds to the WLAN standard.

### Simple remote control with App

Control your home from anywhere at any time with your smartphone with the free brennenstuhl®Connect App.

### Flexible schedules and timer function

The timer function can be used to automate daily and weekly schedules.

### Voice command

With just a few clicks in the respective apps, you can benefit from the Alexa Voice Service from Amazon and the Google Assistant.

## brennenstuhl® Connect Smart Home App

### Free app for iOS and Android

Simple commissioning and remote control from anywhere and at any time via smartphone with the free brennenstuhl®Connect App.

## brennenstuhl®Connect Wi-Fi Smoke And Heat Detector WRHM01

Reliable protection in the event of fire or smoke generation: get an early warning if there is a fire.

- At the first sign of smoke or fire, an alarm notification appears immediately via the app thanks to push notification to the smartphone.
- Photoelectric detector, tested according to EN 14604.
- With additional heat detection.
- Penetrating alarm signal 85 dB.
- Alarm notification via push message.
- Low battery beep.
- Easy commissioning and control with the free brennenstuhl®Connect app.
- Batteries included.
- Mounting material included.

## Smoke Detector RM L 3100

Particularly suitable for long-term use.

- VdS tested according to DIN EN 14604.
- Smoke detector with quality seal "Q", complies to the increased demands of regulations 14-01 vfdb.
- With approved long-life cycle and reduction of false alarm signals.
- Increased stability against outer effect.
- 10 years of operational life without changing battery.
- 3 V lithium battery fixed in devices for constant operational readiness.
- Optical function display, with test button for the functional check.
- Includes mute function for false alarm and "Do not disturb function" for low battery level.
- Shrill alarm - 85 dB.
- Optical and acoustic signal when the battery is low.
- Includes mounting materials.

### Magnet Assembly Plate BR 1000

for Smoke Detector

- Mounting your smoke alarm without drilling, screwing or noise.
- No damage to the ceiling or cables/ducts.
- Very easy and fast assembly with two self-adhesive magnetic plates.
- Easy to remove the smoke alarm (for tests, replacing the battery, etc.).
- Not suitable for vinyl wallpapers, styrofoam, non-stick coated, siliconized or Teflon-coated surface. Only limitedly suitable for smoke alarms with a diameter of less than 8 cm.

### Electronic Multi-Tester MT 6 S/2

- Non-contact location of cables with AC voltage.
- Checking phase, neutral and earthing conductor at the sockets.
- Continuity check, e.g. of fuses, bulbs, etc.
- Polarity check, e.g. of batteries.
- Display through the LED.
- Small and handy.
- Because of the super-bright LED, can also be used as a flashlight.
- Inclusive 3 replaceable coin cells.

#### TECHNICAL DATA

EAN	4007123249916
UP	5
Length of product	3 cm
Width of product	10 cm
Height of product	24.5 cm

### Moisture Detector MD

- To determine the moisture content of wood or building material, such as, e.g. concrete, brick, screed, plasterboard, wallpaper, etc.
- Measurement range of 5 - 50 % for wood, or 1.5 - 33 % for building material.
- Display on a large LCD display (in percent, resolution 0.1 %) as well as acoustically (can be deactivated).
- Practical "hold" function also makes measurement possible at locations difficult to access.
- Automatic switch-off approx. 3 mins, after last application.
- Battery low voltage display.
- Robust, ergonomic housing with separate compartment for 9 V monobloc battery (not included).
- With protective cap.

### Compressor Hose Reel Anti Twist

- Ideal for any air tools.
- Reel body made from special plastic fitted to a galvanised steel tube frame.
- Suitable for wall-mounting, comes with 2 hooks.
- Available either with PCL or DIN quick couplings.
- Advantage: Hose can be unwound / wound while the connecting hose (2 m) is fitted to the compressor.

### Water Hose Reel

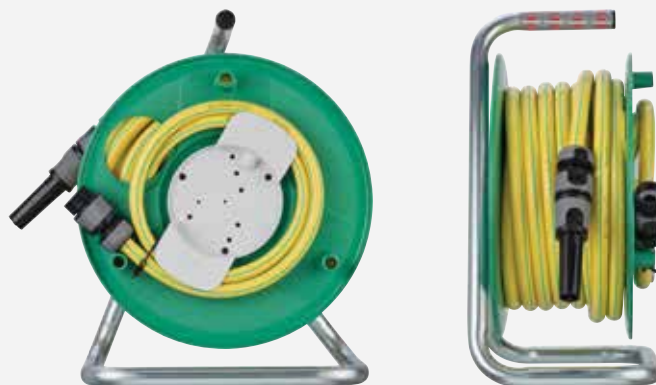

The light, practical and mobile water hose extension.

- Special hose with textile inlay and spiral wound cross-weave.
- Flexible and pressure-resistant.
- With a spraying nozzle with waterstop and a top connector.
- Drum is made of special highly breakproof plastic.
- Strong carrying frame made of galvanized tubular steel.
- Easy to wind and rewind.

### Signograph 25 Diamant-Set

Electric engraver - Engraving is as easy as writing.

- The universal set for all materials from soft to extra hard. With diamond, hard metal and hardened styluses. 2 forming heads for soft metals such as copper, tin and aluminium.
- Vibration strength: a (peak)  $\sim 74,02 \text{ m/s}^2 = 7,545 \text{ g}$  (peak value)  
a (rms)  $\sim 52,34 \text{ m/s}^2 = 5,336 \text{ g}$  (rms-value/root-mean-square-value).

<b>Telescopic Extending Workstand</b>	<b>97</b>

## TRESTLES

Trestles

### Extending Workstand MB 120 KH with Quick-Clamping System

- Strong, stable steel trestle.
- Ideal on staircases; feet fitted with protective caps.
- Fitted with quick-clamping system. Legs individually and conveniently height-adjustable up to 83 cm.
- Impact and scratch-resistant plastic coating.
- Wide, non-slip surface.
- Compact, can be folded up, comes with carrying handle.

#### TECHNICAL DATA

Product number	1444610
EAN	4007123147687
UP	2
Max. height retracted	0.61 m
Max. height extended	0.83 m
Surface	0.97 m
Total permissible weight	120 kg
Weight of product (without packaging)	6.3 kg

### Steel Workstand MB 110

- Strong, stable square-profile steel tubing.
- Impact and scratch-resistant plastic coating.
- Folds up to save space.
- Easy to install.

#### TECHNICAL DATA

Product number	1444800
EAN	4007123101658
UP	4
Height	0.71 m
Surface	0.64 m
Total permissible weight	110 kg
Weight of product (without packaging)	3 kg

### Saw Horse MB 150 S

- Strong, stable, angled steel profile.
- Galvanised finish ensures effective protection against rust.
- Non-slip, serrated supporting surface.
- Compact, can be folded up.
- Easy to carry.

#### TECHNICAL DATA

Product number	1440840
EAN	4007123112319
UP	2
Height	0.79 m
Depth	0.85 m
Surface	0.81 m
Total permissible weight	150 kg
Weight of product (without packaging)	8.4 kg

### Telescopic Extending Workstand MB 160 H

- Strong, stable square-profile steel tubing.
- Impact and scratch-resistant plastic coating.
- Folds up to save space.
- Vertically adjustable - stability assured by user-friendly locking pins.
- Extending locking hooks prevent the worktop from sliding off sideways (max. 64 cm wide).
- Easy to install.

#### TECHNICAL DATA

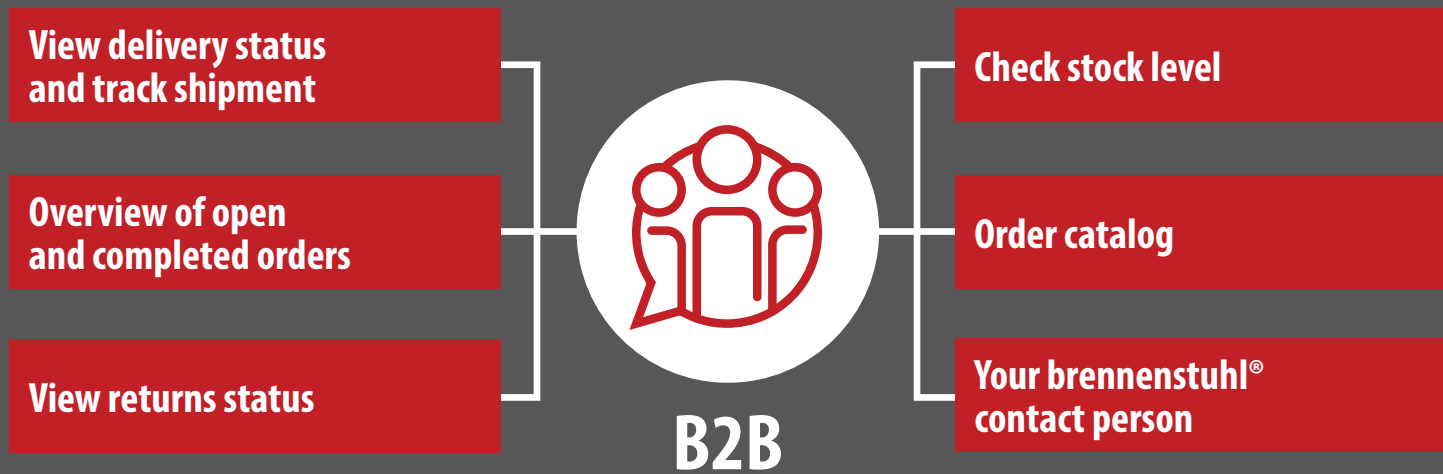

Product number	1444700
EAN	4007123101641
UP	2
Max. height retracted	0.81 m
Max. height extended	1.31 m
Surface	0.56 m
Total permissible weight	160 kg
Weight of product (without packaging)	6.3 kg
