

Data Sheet
9-253 Circuit Board Holder

Part number 9-253

The small vice SPANNFIX with the types 9-205, 9-215 and 9-220 as well as the VARIO combinations 9-251, 9-252, 9-253, 9-254, 9-255, 9-256, 9-257 simplifies the operations in precision engineering, in laboratories, in mechanical and electronical workshops as well as in different medical areas.

Furthermore the SPANNFIX bases enable an exact and secure adjustment in all directions, e.g. of measuring instruments, of monitors and of observation cameras.

For these purposes the types 9-251, 9-261, 9-262 und 9-281 are available.

The high grade powder-coated aluminium casting and the surface-refined steel parts are the guarantee for a long life.

Article description Circuit board holder
adjustable from 25 mm to 270 mm

Characteristics:

Practice tip Usuable in connection with 9-251 base and 9-255 angular adapter
When using clamping lid 9-256 the rapid turning device 9-257 is applicable.

Clamping pressure -
Clamping capacity -
Clamping depth -
Jaw width -

Weight 0.280 kg

Customs Tariff Number: 82057000

EAN Number: 4250838511377
