

JBC FL

Flux brush 5.5 ml

JBC

FL is a flux brush designed to be used in the preparation of printed circuits prior to soldering an SMD component, especially flat pack integrated circuits.

All you need to do is fill the barrel with the flux. Our pens have a retractable valve in them so you have complete control of how much flux you release by gently squeezing the barrel.

FL is supplied without flux

SPECIFICATIONS

Net weight 0,007 kg (0.01lb)

DIMENSIONS AND WEIGHT

Package 170 x 21 x 21 mm / 0.02 kg.
6.69 x 0.83 x 0.83 in / 0.04 lb.
