# THE BRAND

Products that are sold under the name Rock-Cable® have become well established among musicians in the past 7 years since the brand was founded in 2004. Professional as well as semi-professional artists appreciate the outstanding product benefits and the excellent price-performance ratio, which we are able to offer and achieve thanks to optimum production efficiency.

The budget-friendly Rock-Cable® line comprises a rich assortment of audio products and cables for video applications and thus offers a professional alternative. Secondary noise reducing technologies such as “conductive plastic” and capacity-optimised materials are benefits which cannot be found with other products in this price range.

**AUDIO LINE**

**PURE TIMBRES**

- **SPECTACULAR SOUNDS**

# TIMBRES

The Rock-Cable® Audio Line comprises a rich assortment of products. The spectrum ranges from Y-splitters, adapter and MIDI cables to a number of audio cables for computer, guitar, bass, microphone and keyboard applications.

The Audio Line is a very cost-effective alternative to other professional product lines on the market. Secondary noise reducing technologies such as “conductive plastic” and capacity-optimised materials are benefits which cannot be found in other products in this price range. The audio cables are soldered by hand and assembled with REAN® connectors with metal housings. The connectors feature nickel or gold-plated contacts and moulded bushings which can be easily opened for service purposes.

\* REAN (Made in China) is a registered Trademark of Neutrik AG.

# VIDEO LINE

A FEAST FOR THE

**EYES - RAZOR-SHARP IMAGES**

# A FEAST FOR THE EYES

Due to increased demand for low-budget video and data cables, we launched a video product line. The Rock-Cable® Video Line is in no way inferior to the Audio Line: It comprises cables with tried-and-tested standards to very attractive, cost-effective conditions.

The range includes analogue VGA and VGA audio cables in different lengths, HDMI and HDMI-DVI cables as well as mini DisplayPorts which are increasingly coming into focus. Just like the audio cables, the video cables are soldered by hand.

	<p><b>HDMI-DVI cables</b> Black cable with PVC jacket, assembled with one HDMI male connector to one DVI-D female connector (DVI-D single-link), both with gold-plated contacts.</p>	<p>NRV-070-080-001 NRV-070-080-005</p>	<p>10 cm 50 cm</p>
	<p><b>Analogue VGA cables with audio</b> Black VGA cable with PVC jacket, assembled with one 15-pole VGA male connector with screw terminals to one 3.5 mm stereo mini plug, both with gold-plated contacts.</p>	<p>NRV-070-050-010 NRV-070-050-025 NRV-070-050-050 NRV-070-050-075 NRV-070-050-100</p>	<p>1 meter 2.5 meters 5 meters 7.5 meters 10 meters</p>
	<p><b>HDMI flat cables 1.4</b> Black HDMI 1.4 flat ribbon cable with PVC jacket, assembled with black/white HDMI male connectors with gold-plated contacts. The cable has a width of 12.5 mm.</p>	<p>NRV-070-060-005 NRV-070-060-010 NRV-070-060-020 NRV-070-060-030 NRV-070-060-050</p>	<p>50 cm 1 meter 2 meters 3 meters 5 meters</p>
	<p><b>HDMI cables</b> Black HDMI 1.4 cable with PVC jacket, assembled with black/blue HDMI male connectors with gold-plated contacts on both sides.</p>	<p>NRV-070-090-005 NRV-070-090-0075 NRV-070-090-010 NRV-070-090-020 NRV-070-090-030 NRV-070-090-050 NRV-070-090-100</p>	<p>50 cm 75 cm 1 meter 2 meters 3 meters 5 meters 10 meters</p>
	<p><b>HDMI-A-C cables 1.4</b> Black high-speed HDMI cable, assembled with one HDMI male connector type A and one HDMI male connector type C, both with nickel-plated contacts.</p>	<p>NRV-070-100-005 NRV-070-100-010 NRV-070-100-015 NRV-070-100-020</p>	<p>50 cm 1 meter 1.5 meters 2 meters</p>
	<p><b>HDMI-DVI cables</b> Black cable with PVC jacket, assembled with one HDMI male connector to one DVI male connector (DVI-D single-link), both with gold-plated contacts.</p>	<p>NRV-070-070-005 NRV-070-070-0075 NRV-070-070-010 NRV-070-070-020 NRV-070-070-030 NRV-070-070-050 NRV-070-070-100</p>	<p>50 cm 75 cm 1 meter 2 meters 3 meters 5 meters 10 meters</p>

	<p><b>FireWire cables 4/4</b> Black, 4-pole FireWire adapter cable with black PVC jacket, ferrit core and gold-plated contacts, with 4 wires solely responsible for data transmission. Cable according to IEEE 1394.</p>	<p>NRV-070-020-015 NRV-070-020-025 NRV-070-020-050</p>	<p>1.5 meters 2.5 meters 5 meters</p>	
	<p><b>FireWire cables 4/6</b> Black, 6-pole FireWire adapter cable with PVC jacket, ferrit core and gold-plated contacts, with 4 wires for data transmission and 2 wires for power supply. The data transmission is bi-directional. Cable according to IEEE 1394.</p>	<p>NRV-070-030-015 NRV-070-030-025 NRV-070-030-050</p>	<p>1.5 meters 2.5 meters 5 meters</p>	
	<p><b>Mini DisplayPort</b> White adapter cable with one Mini DisplayPort to one HDMI female receptacle.</p>	<p>NRV-070-110-0015</p>	<p>15 cm</p>	
	<p><b>Mini DisplayPort</b> White adapter cable with one Mini DisplayPort to one DVI-D female single-link.</p>	<p>NRV-070-120-0015</p>	<p>15 cm</p>	
	<p><b>Mini DisplayPort</b> Mini DisplayPort to one VGA female receptacle.</p>	<p>NRV-070-130-0015</p>	<p>15 cm</p>	
	<p><b>Rock-Cable velctro strap</b> Black, 5 mm wide Velcro® strap, available on reels of 100 m. The fastener is delivered in a PE bag and can simply be cut with scissors to the desired length. Ideal for neat cable management and for various packaging options.</p>	<p>NRA-070-0003-000</p>	<p>100 meters</p>	

# IN GENERAL

## **Damages**

Damages caused by interferences and resulting modifications of the products are excluded from liability. Damages due to improper handling and consequential damages are also not covered.

## **Quality features**

All audio cables by Rock-Cable® are soldered by hand and assembled with REAN® connectors with metal housings. The connectors feature nickel- or gold-plated contacts and moulded bushings which can be easily opened for service purposes. Rock-cable® products fulfil all necessary requirements and are available at attractive prices thanks to excellent production efficiency.

## **Technical information**

Technical changes by the manufacturer are possible and can be implemented without prior notice. Technical data and drawings are non-binding and provided for information purposes only. According to official safety regulations regarding the use of electronic devices, all components requiring testing that do not bear the SEV identification label – even if they bear a similar label – may only be used in the voltage range of up to 50 V AG or 72 V DC.
