

SCREENFORCE™

UltraGlass Antimicrobial-Treated Screen Protector

Protect your new smartphone with an ultra-tough screen protector that's up to 2x stronger than tempered glass.* The German-engineered glass has been double ion-exchanged for better drop and impact protection. The protector also contains an antimicrobial agent* to protect the screen from microbial growth that causes discoloration and degradation.

Throw your phone in your bag, or pocket with keys, and keep that fresh out-of-the box finish because your screen protector was awarded the highest possible score in scratch resistance (9H) and finished with an anti-fingerprint coating. All of this delivered in just 0.29mm with precision touch sensitivity and crystal clarity that maintain the look and feel of your screen. A flawless, bubble-free application is easy at home or in-store.

Compatibility

iPhone 13 Pro Max, iPhone 13 Pro, iPhone 13, iPhone 13 mini

Package Includes

- UltraGlass Antimicrobial-Treated Screen Protector
- Easy Align tray
- Dust removal sticker
- Cleaning cloth

The Belkin Difference

- Pioneer in innovation and technology for over 35 years
- Enhanced durability from multi-layer composition and impact protection
- Touchscreen sensitivity and a natural screen response

The Belkin SCREENFORCE Family

Maximum protection concentrated into the thinnest possible element. ScreenForce is engineered to look and feel like the phone screen it protects, preserving clarity and touchscreen sensitivity for a barely-there experience. Beneath the tactile, glass-like surface, this hard-hitting protector provides impact protection, scratch resistance, and enhanced durability to deliver long-lasting, resilient screen protection.

SCREENFORCE™

UltraGlass Antimicrobial-Treated Screen Protector

Product Benefits

1. Ultra-impact protection using German-engineered glass
2. Double ion-exchange strengthened glass replaces smaller molecules with larger ones for a material that is up to 2x stronger than tempered glass[†]
3. Antimicrobial coating protects the product from discoloration and degradation
4. Precision touch sensitivity through intelligent glass composition that reacts like your phone's own screen
5. Scratch resistance that's been awarded the highest score (9H) prevents scuffs and scratches from daily wear and tear
6. Incredibly slim at just 0.29mm, you hardly notice the ultra-tough layer of protection
7. Crystal clear so you can see photos and videos as they're meant to be viewed
8. Flawless application at home or in-store provides a bubble-free finish with no lifting
9. An anti-fingerprint coating keeps your phone smudge-free
10. Plastic packaging components made entirely from recycled bottles[‡]

The Belkin SCREENFORCE Family Characteristics

- Provides impact protection by absorbing shock of impact to protect phone screen
- Multi-layer composition provides enhanced durability
- Tested using optometric standards to provide best-in-class crystal clarity
- Tested according to the pencil hardness test for superior scratch resistance
- Super-thin design provides protection without bulkiness
- Intelligent materials preserve touchscreen sensitivity
- Glass composition provides a tactile response that feels like the natural screen
- Precision-cut by machine to cover the maximum screen area for longer-lasting protection
- Anti-fingerprint coating repels dirt and smudges

SKU#: OVA077zz (iPhone 13 mini),
OVA078zz (iPhone 13, iPhone 13 Pro),
OVA079zz (iPhone 13 Pro Max)

*Based on third-party lab results conducted under the JIS Z 2801-2010 test standard. Contains a biocidal product: Dimethyloctadecyl[3-(trimethoxysilyl)propyl]ammonium chloride

†Based on drop tests of lithium aluminosilicate versus single-tempered aluminosilicate glass, using rough sandpaper. 80% of samples survived a drop height 2x higher than conventional single-tempered aluminosilicate glass.

‡Recycled plastic components only include Easy Align tray, support tray, and hangtab.
