Powering Business Worldwide

Product specifications

Resources

Cable entry
M20 hole

Degree of protection (IP)
IP66

Product branding
Eaton

Operating temperature - min
-25 °C

Construction material
ABS/FR

Color
Red

Material
Plastic

System wiring
0.28 mm - 2.5 mm

Humidity (Non Condensing) - Max
95 %

Number Of Poles
1

Addressing mode
Hard addressing

System typology
Conventional (Non-addressable)

EN Certification Standards
EN54 Pt11 (Manual Call Point)

Alarm current - min
0 mA

Fitted with:
Glass Disc

Mounting position
Wall surface (internal)
Wall (weatherproof)

Operating temperature - max
70 °C

Resettable

No

Standby current

0

Alarm current - max

3000 mA

Type of messaging

Fire brigade alarm (red)

Humidity (Non Condensing) - Min

0 %
