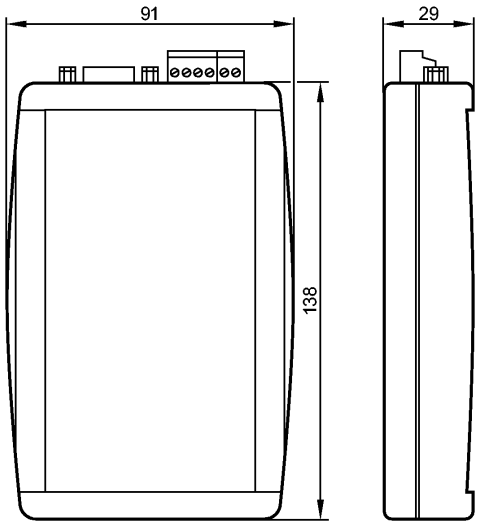
ecomat300

AC1145

eAS-i Tester

Bus system AS-Interface



CE

Product characteristics		
eASI-Tester		
Local diagnosis of the AS-i network		
Creation of test reports for AS-i networks		
User-friendly diagnosis and evaluation via the connected PC		
Application		
Application		Diagnosis and analysis tool for AS-i
Function		Passive AS-i participant as interface for AS-i system analysis with a PC: - Slave lists as system overview - Slave data (inputs and outputs) - Configuration data of the connected slaves - Statistics on the communication errors - Complete message evaluation in the expert mode
Electrical data		
Rated insulation voltage		> 500
Rated operating current [mA]		70
Undervoltage monitoring		yes
Software / programming		
System requirements		PC with Pentium processor or higher Windows version 95/98/ME/NT4/2000/XP/Vista/7/8 (32 bits or 64 bits)
Interfaces		
Interface		AS-i RS-232 (PC connection) Trigger input (24 V) Trigger output (TTL)
Telegram memory		256000 AS-i telegrams
Environment		
Ambient temperature	[°C]	0...55
Storage temperature	[°C]	-25...70
Tests / approvals		
EMC		EN 50081-2 EN 61000-6-2

AC1145

eAS-i Tester

MTTF	[Years]	280
AS-i classification		
AS-i version		2.1
Mechanical data		
Weight	[kg]	0.241
Displays / operating elements		
Indications		LED green (power): Supply voltage ok LED green (ser active): RS-232 interface active LED green/red (test): Test mode
Accessories		
Accessories (included)		D-Sub data cable; software on CD
Remarks		
Pack quantity	[piece]	1
