

L-BOXX - equipped with insert boxes

Made of shatterproof ABS plastic

Sortimo
Intelligente Lösungen

Application:

For transporting small parts, tools and machines. The L-BOXX optimises the work processes and ensures intelligent organisation, storage and safe transportation of small parts, tools and machines in the workshop.

Version:

- Made of extremely high-quality, impact-resistant ABS plastic, ultimate breakage resistance guaranteed
- Fully splash-proof
- Maximum load 12 kg
- Ergonomic carry handle and recessed handles on the sides, made from plastic
- Two robust locks

Advantage:

- The highly innovative click-mechanism allows non-slip stacking
- Secure connection and transport of several L-BOXXs together
- The L-BOXXs can only be connected to each other and separated from each other again using a handle
