

EAN:	4013288207227	Size:	245x95x25 mm
Part number:	05022130001	Weight:	480 g
Article number:	950/9 L Hex-Plus HF 1	Country of origin:	CZ
		Customs tariff number:	82054000

- The holding function on the long arm keeps screws securely on the tool
- Hex-Plus allows socket head screws to live longer
- Extra-long arm
- High corrosion protection thanks to chrome-plating
- Wear-resistant clip material for enhanced durability

Set of high-quality L-keys for hexagon socket screws with high corrosion protection and extra long lever for high power transmission and working in low positions. The Hex-Plus profile offers larger contact surfaces at the screw head. The notch effect is thereby reduced to a minimum, the destruction of the screw head almost eliminated. Tools from size 3 onwards offer a holding function through a pressed resilient ball.

Set contents:

	950 L HF	
	05022120001	1 x 3 x 126 mm
	05022125001	1 x 10 x 219 mm
	05022123001	1 x 6 x 180 mm
	05022121001	1 x 4 x 140 mm
	05022124001	1 x 8 x 200 mm
	05022122001	1 x 5 x 160 mm

	950 L	
	05021605001	1 x 2 x 100 mm
	05021610001	1 x 2,5 x 112 mm
	05021600001 ¹⁾	1 x 1,5 x 90 mm

1) Regular hexagon

With retaining function on long arm

The clamping of the screw is achieved by a flexible locking ball. The holding function is especially helpful in confined, hard-to-reach spaces, where there is no room for a second hand to sec

Hex-Plus

Hexagon screws can endure a problem because the contact surfaces delivering the power from the conventional tool, is transferred to the screw via very small surface areas. The consequence: the screw can become damaged (rounding out). Hex-Plus tools have a greater contact surface that prevents this from happening! At the same time, as much as 20 % more torque can be applied. Good to know: Hex-Plus tools fit into every standard hexagon socket screw!

Size markings

The size of each L-keys has been engraved by a laser making it easy to find the right tool.

High corrosion protection thanks to chrome-plating

Chrome-plated hexagon L-keys for outstanding surface protection and long service life. High corrosion protection.
