Product Packaging Change Notification - DC motor

Dear Valued Customer,

Thank you very much for your support of NIDEC Components products.
This letter is to inform you of the upcoming change regarding the packaging of our DC motors (HG16, HG37, MG16B).

Currently, our motors are shipped in trays of polystyrene. Due to environmental issues and import regulations, we have decided to change the material from polystyrene to plastic. For details, please refer to the attached change report.
Should you have any questions or concerns regarding this announcement, feel free to contact our local sales representatives.

Thank you for your cooperation and understanding.

Change Details

① Affected Models

- HG16 Series
- HG37 Series
- MG16B Series models

② Effective for DC Motors produced from **November 2023** onward.
