

Workplace mat made of nitrile rubber, oil-resistant and flame-retardant

Perforated structure, height 19 mm - modular assembly system

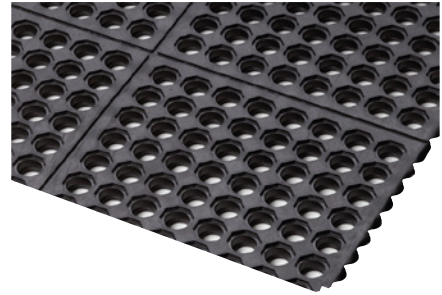

Application:

The mats are easy to assemble in order to cover large areas and equip individual workplaces. The rectangular grid can be laid effortlessly from wall to wall or as an island in several directions

Advantage:

- The square mats can be assembled to cover any area
- Can be combined with yellow or black edging systems for flexible edge strip solutions
- The flexible assembly system means that individual mats can be exchanged or adapted to a different environment
- Insulating mat protects against cold, heat, vibration and noise
