# Die, hexagon HSS M right For universal use up to 700 N/mm2

#### Application

For retapping and repairing damaged metric male threads in the steel and NF metal material groups up to a strength of 700  $N/mm^2.$ 

## Version

Right-handed hexagonal die with tol. 6g

### Advantage

- Hexagonal design for tapping difficult to reach threads
- Micro-cutting edge treatment and special lapping process for high process reliability and a long service life
