

145 Marine Padlocks

The 145 Marine padlock has been designed and manufactured to the highest standards to offer a secure padlock with exceptional weather resistance. The mirror chromed solid brass body, rust free internal components, 316 stainless steel shackle and rubber shackle seal combine to provide corrosion resistance in the most extreme environments. Security is paramount, with a double bolted shackle to resist torsion/pull attack and a 5 pin anti-pick cylinder designed to withstand manipulation. Range includes 40 and 50mm in standard and long shackle, both keyed to differ and keyed alike.

- Marine grade 316 Stainless Steel Shackle - extreme weather protection, tested to ISO 9227.
- Mirror chromed brass padlock - extreme weather protection.
- Rubber shackle seal - protects the cylinder from water ingress.
- Rust-free stainless steel and brass internal components.
- Double bolted locking mechanism - strength against torsion and pull attack.
- Anti-pick mushroom pins - protection against picking.
- Paracentric keyway - extra protection against manipulation.
- 2 keys per padlock.
