

IMPACT XTREME WINTER

Name	Impact Xtreme Winter	Article number	IMPXWIN	  CAT II
Colour	Red / Black	Glove thickness	Palm: 2,1 mm Back of hand: 9,9 mm	
Size	8-13	Packaging	1 pairs / plastic bag, 24 pairs / carton	
Certification number	LPMPZ 2014-0861	Barcode	8: 7340022525031, 9: 7340022525048, 10: 7340022525055, 11: 7340022525062, 12: 7340022526397, 13: 7340022526403	

Glove purpose	Very high impact protection in rough winter conditions.
Materials	Glove in SupraBlock 4; high quality micro fibre and PVC in palm. Polyester/Spandex fabric in back of hand. Waterproof. SupraBlock Impact and SupraBlock Stop on back of fingers with micro fibre on top. CLS palm and CLS back inner lining. SupraBlock Impact have a residual force of 3 kN and is Impact approved according to new EN388 standard.
Fitting <small>(elastic tight, tight, close, loose)</small>	Close fit.
Abrasion	Good abrasion resistance.
Cut	Not suitable for environments where cut resistance is necessary. Strength ○○○○○ Hardness ○○○○○
Tear	High tear resistance; keep away from machines with moving parts.
Puncture	Moderate puncture and needle resistance.
Heat and insulation	Not suitable for contact with heated objects. Suitable for use in cold temperatures.
Water/Oil	Waterproof membrane in glove and outer fabric is water and oil repellent with SupraCoat Dry treatment.
Grip	Good dry, wet and oily grip.
Breathing	Good breathing properties.
Impact	Very good Impact protection with residual force after 5 Joule impact only 3 kN.
Chemical safety	REACH safe.

Disposal	No special waste	Storage and cleaning notice	Wash in 30 degrees.
Suitable industries	Offshore, mining, transport, wind mill maintenance and drilling.		Store in cool, dry and dark place. Avoid storage for several years.
