

Forklift hooks double

Application:

As an add-on unit for all types of stacker.

Execution:

- The rotating and pivoting compact hooks are attached outside the dovetail opening. Thereby, the dovetail opening can be fully utilised and there is no jamming of the stacker dovetail on inclined pulling
- Effortless conversion into a safe lifting device
- Double, can be locked on both fork arms via cross arms, load can be divided into 2 fork arms

Art. no.	77185 132
Load-carrying capacity	3150 kg
Design	Double
Fork, internal distance	100 mm
Internal width	145 mm
Interior height	65 mm
Colour	Orange
Gross Weight	15.300 kg
Product Group	7EH
