

**JBC NBC260**

## Bent Needles & Cups for T260

These accessories allows the **adjustment to weight and size of any type of component.**

**The suction cups can be adjusted to the needles** in order to make the placement of SMD to different sizes on board easier.

When you assemble the suction cup with the needle, you should avoid the needle to stick out of the lower part.

These needles are supplied with **JNA High-Precision Hot Air Station** and work with **T260 Pick & Place**

**NBC260** include:

- (x2) Metallic Bent needles 30G 60° Ø0.159
- (x2) Metallic Bent needles 25G 60° Ø0.26
- (x2) Metallic Bent needles 20G 60° Ø0.60
- (x2) Suction Cups 4.3 X0.5
