

DM9000 PCB/Metal Shears

High quality low cost Bench Top Shears which can accurately cut FR4, precious metals such as Silver, Palladium, Platinum, Gold copper sheet, PCB laminates up to 1/8" Thick (3.175mm), brass and aluminium sheet etc up to 1.5 mm thick with Plastics up to 2.00 mm thick.

These shears are very popular with Sign Makers, Sublimation, Jewellery Makers, Metal Etchers and Trophy Centres as well as Electronic PCB manufacturers. aluminium up to 1.5mm. An important feature of these shears is safety. Free access to the cutting area is prevented by heavy Perspex shielding extending along both sides of the blade. A safety latch is fitted to the pivot to prevent operation without it first being released.

For positional accuracy the cutting bed is fitted with a rule which is recessed to assist in securing the PCB or sheeting whilst cutting is in progress. The DM9000 has a cutting capacity of 203mm (8") and is extremely compact with an overall height of only 575mm and a footprint of 335 x 140mm. It has a cutting bed of 110mm wide from the blade although wider material can be cut.
