

Spark plug terminal pliers, long version

ATORN®

Application

For holding and loosening round, conical and angular objects.

Version

- Special tool steel, oil-hardened
- Long, bent by 90°, flat, round jaws
- Fine-grooves with burner hole and special tip shape for 15-30-mm diameter
- Pulling round materials and handling particularly delicate workpieces

Advantage

- The hot engine block is not scorched thanks to the long design
- The optimum position of the centre of rotation guarantees safe and controlled gripping

Art. No.	53054 540
Length	280 mm
Surface	Chrome plated
Version	Curved gripping ring
Material of the grip handle	Polyvinyl chloride

EAN-Code
