

## Transportation Data Sheet

MSA declares that the products listed below are considered articles with no intended release of substance and therefore are not regulated as a hazardous material/product and a Safety Data Sheet (SDS) is not required. This document is meant to provide our supply chain with dangerous goods (DG) and/or Hazardous Materials (HazMat) transportation information when a SDS is not required for the product.

### Regulatory Reference(s):

- International Air Transport Association (IATA) Dangerous Goods Regulations
- Hazardous Materials Regulations, 49 CFR Parts 171-180 (US DOT)
- Transportation of Dangerous Goods Act and Regulations (CA TDG)

**Product Name/Line:** Multigas Detector, Altair 5X

Product specific information needed for categorization and transport of this product\*:

<b>Multigas Detector, Altair 5X Battery Contained in Equipment</b>				
<b>UN #</b>	<b>Description</b>	<b># Cells</b>	<b>Li Weight (g)</b>	<b>Power Rating (Wh)</b>
3481	Lithium Ion Batteries Contained in Equipment	1	0.6	7.7

\*Information is based on supplier declarations provided to MSA by the Original Equipment Manufacturer (OEM).

Please feel free to contact me directly if there are any questions or concerns.
