

Loose sliding blocks

Application:

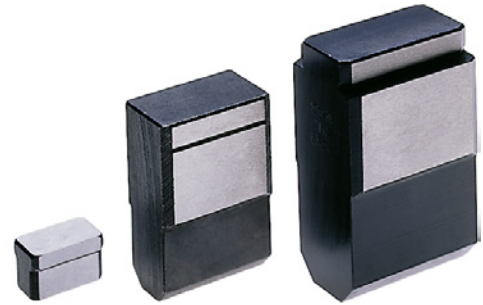

For positioning tools on jigs.

Execution:

- C 15 case-hardened and polished
- Ref. no. 212 for small machines = jig groove 12 mm
- Ref. no. 312-322 for small machines = jig groove 20 mm

Advantage:

- When transporting the device, there are no sliding blocks protruding from underneath to cause a problem and the machine table cannot be damaged.

Art. no.	26196 318
Brand	AMF
Manufacturer Part Number	71860
Form	A
Slot size on machine	18 mm
Slot size on device	20 mm
Height	14 mm
Section, height	5.5 mm
Length	32 mm
DIN	6323
Gross Weight	0.073 kg
Product Group	260
