

28-Apr-2020

PCN #:E-20-006124

**Subject:**Solder devices as per attached list of parts.

**Description of Change:** Flux change in solder preform from ROL0 flux to ROM1 flux , both are in accordance with ANSI J-STD-004B

**Reason:** Product Improvement. Certain products within our Devices product line have been manufactured with a ROL0 flux instead of ROM1 flux as required under applicable specifications (including TE and external agency specifications). ROL0 flux is being replaced with ROM1 to comply with specifications. Although test data demonstrates ROL0 flux meets performance requirements, TE is changing to a ROM1 flux that complies with relevant specifications, including applicable MIL specifications as required. Some customers may receive mixed shipments for a few weeks as we switch flux materials.

**Key Dates:**

**Contact By Date:**29-May-2020

**Implementation Date:**29-May-2020

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.
