Kraftform Kompakt user-specific sets

The Zyklop Mini Ratchets

For all difficult-to-access applications.

Twist drill bits for wood applications

Twist drill bits – for wood applications • 1/4" drive suitable for holders as per DIN 3126-D 6.3 (ISO 1173) • Hexagon shaft for very high torque transfer • HSS = high speed steel • Finely adjusted material elasticity for long service life • Excellent concentricity • Tough-absorbing tempered bits for particularly long service life

Manual and machine sockets

The manual and machine sockets can be used both for hand and power tools use (non-impact). Users need just one socket set for all applications.

Textile boxes

The textile boxes offer dramatically improved portability, and are space-saving to boot! This means you can now carry the same collection of tools, in a much more compact and comfortable package. The hassle of running back and forth for the right tools has now become a thing of the past. And the much lower weight of a set makes carrying more convenient than ever before. The textile box including the tool will even survive a fall undamaged.
