

Clamping bolts

Application:

For quick and secure clamping on machine tables and appliances.

Execution:

- The thread on lengths of 100 and 150 mm can be replaced with a stud bolt, which means that larger threads and sliding blocks can also be used.
- Clamping ring made of brass to protect the workpiece
- Included for illustrative purposes:
 - 1 - Clamping bolt
 - 2 - Washer
 - 3 - Clamping screw
 - 4 - Clamping ring
 - 5 - Stud bolt

Advantage:

- Short set-up time
- Optimal use of machine table
- Barely any awkward edges
- Free access during milling and drilling

Delivery:

With clamping bolts and standard clamping screw (8-40 mm)

Art. no.	26240 021
Brand	TSCHORN
Manufacturer Part Number	003000100
Length	100 mm
Min./max. clamping range	8-40 mm
Thread dimension	M10
Gross Weight	1.124 kg
Product Group	265
