TE Connectivity

Product Change Notification: E-20-000286

PCN Date: 22-JAN-20

TE would like to inform you of the following change(s) to the listed TE Connectivity Product. In case of any further questions about this change(s), please contact your TE Connectivity Sales Engineer. Affected part, drawing and/or specification numbers are listed on the attached sheet(s).

General Product Description:

Drawing RAYBRAID-FORMER-SCD and FORMER-3MM-OD-(TE) (CQ94303001)

Description of Changes

Drawing to be updated with a cylinder instead of a tube. Removal of ID for the FORMER-3MM-OD-(TE) and adding the TCPN to material.

Reason for Changes:

Manufacturing / Process Requirements. For Raybraid, we use a plastic former inside the braid to ensure the braid maintains its round shape during transportation and storage. For the 3mm size RAY-10X-3.0, the plastic former that is supplied may be a hollow tube, or it may be a solid shape. This is to ensure the braid itself retains its shape prior to use.

Estimated Dates:

Last Order Date (Obsolete Parts Only):	First Date To Ship (Changed Parts Only):
	03-FEB-2020
Last Ship Date (Obsolete Parts Only):	Last Date for Mixed Shipments: (Changed Parts Only):
	No Mixed Shipments
