Mechanical specifications

Core cross-section	max. 2.5 mm ²
Mass	approx. 5 g
Dimensions	15.1 x 15 x 18 mm (0.6 x 0.6 x 0.7 in)
Construction type	removable screw terminal with integrated cold junction compensation

Features

- 3-pin screw terminal
- For KF modules
- Integrated Cold Junction Compensation
- Packaging unit: 1 piece, black

Function

The terminal block is suitable for K-System applications.

The black terminal block is used for connection of field signals as well as the connection of control signals.

This terminal block has an integrated encapsulated Pt100 RTD for cold junction compensation.

The terminal block can be coded with the provided coding pins KF-CP.
