

# TCI 01 Telephone Controlling Interface

- ▶ Allows answering and terminating calls while away from your telephone
- ▶ Works with handset lifters as well as built-in electronic hook switches
- ▶ Comes complete with connecting and interface cables

Used in combination with a Sennheiser Communications telecom headset and the DW800 wireless system, the telephone controlling interface TCI 01 completes the wireless package. It enables you to conveniently answer calls and hang up again while away from your desk.

- ▶ Enables answering and terminating calls while up to 150m\* away from your telephone by pressing the mobile unit's hook button (center key)
- ▶ Supports selected traditional handset lifters, where the handset is lifted or lowered from its cradle mechanically by the lever of a hook switch
- ▶ Supports telephones with a built-in electronic hook switch, supporting either the DHSG standard or the AEI standard.
- ▶ Compact and lightweight, it easily finds room on even the most crowded desktop
- ▶ Optional accessory to the DW800

\* Depending on the operational environment and up to 300m in the line of sight
