

Electricians Cable Cutter Insulated

Klein Tools Electrician's Insulated High-Leverage Cable Cutter is 1000V rated and VDE certified for safety on the job. The multi-color, sleek design with small thumbguards make for easy handling and storage. The three-part insulation with white underlayer provides a warning sign that insulation may be compromised. The durable, molded insulation meets or exceeds IEC 60900 and ASTM F1505 standards for insulated tools.

Specifications
