High Performance Miniature Circular Connectors

HR12 Series

Features

•Snap lock allows for easy insertion and extraction and prevents the accidental un-mating of the connector due to vibration or impact.

•The plug diameter range from ϕ 12mm to ϕ 16mm, and satisfies the need for small-size, light-weight and high-density electronic components.

•Equipped with internal metal parts and a shielding mechanism, the HR12 (20-contacts) and HR212 feature enhanced protection against EMI.

2018.84 **HS** 1

Product Specifications

Ratings	Rated voltage	Rated current	Operating temperature range	Storage temperature range		
-	100V AC, 140V DC	1A	-15℃ to +60℃	-10℃ to +60℃		
14	0	f:	Oracl			
Items		fications	Cond	Itions		
1. Contact resistance 30mΩ max. (excluding the cable conductor resistance)			Measured at DC 1mA			
2. Insulation resistance	ce 100MΩ min.		Measured at DC 250V			
3. Withstanding voltage No flashover or dielectric breakdown.			AC 300V for 1 minute			
4. Vibration resistance No electrical discontinuity for 10μ s or greater.			10 to 55Hz/cycle, amplitude : 0.75mm, 3 axis directions, 2 hours each			
5. Shock resistance No electrical discontinuity for 10µs or greater.			Acceleration : 490m/s ² , duration : 11ms, 3 axis directions, 3 cycles each			
6. Mating Cycles30mΩ max. of contact resistance (excluding the cable conductor resistance)		1,000 times				
7. Temperature cycle Insulation resistance : a minimum of 100MΩ		-25°C : 30 minutes → Normal temperature : 10 to 15 minutes → 70°C : 30 minutes → Normal temperature : 10 to 15 minutes, left for 5 cycles				
8. Moisture resistance Insulation resistance : $1M\Omega$ min. (at high humidity) $10M\Omega$ min. (when dry)			Temperature : 40°C, relative humidity : 90 to 95%, left for 96 hours			

Material / Finish

Part	Material	Finish
Soft vinylchloride (UL94-0) and Polypropylene (UL94V-0)InsulatorPBT resin (UL94V-0) and Polycarbonate (UL94V-1)		
	Brass, and Zinc alloy	Tin plated and Nickel plated
Contacts Copper alloy or phosphor bronze		Tin plated or selective gold plated and silver plated

Model : Series name.	
HR212 is a enhanced shielding type.	
2 Indication of terminal connector provided or not:	
For models with connectors on both sides, different signs are used depending on the type of connector of	on
one side.	
Shell size :	
Indicates the outside diameter of the plug mating part.	
Connector form :	
P : Straight plug	
LP or L : Right angle	
R : Receptacle	
Cable removal directions for a right angle plug are classified as follows :	
A : The cable removal direction is on the right with the guide facing upward viewed from the mating part.	
B : The cable removal direction is on the left with the guide facing upward viewed from the mating part.	
6 Types of connector :	
A connector with two or more varieties is classified by A, B, C,	
2 Number of contacts	
Contact form :	
Classifies the type of contacts as follows: The plug has only male contacts, and the receptacle has only	,
female contacts.	
P : Male contact PC: Crimp male contact (assembly type plug)	
SC : Crimp female contact SD : Straight dip female contact SDL : Right angle dip female contact	
Shape of cable :	
C : Curled cord S : Straight cord	
(Type of cable :	
Cables connected to the plug are identified by A, B, C, when they are different in construction	חכ
and number of cores.	
Cable length: indicate the length is more of the column start to the relux	
indicates the length in mm of the cable connected to the plug.	
Curled cord length : Length of curled part	
Straight cable length : Cable length	
Shape of cable end:	
Plugs with cables of the same shape but different in cable end dimensions and finishing are identified by	A,
B, C,	
(B) Types of accessories :	
SP : Stopper plate	
Other specifications :	
A two-digit character is added to indicate other specifications as needed.	

HR12 Type Right Angle Plug

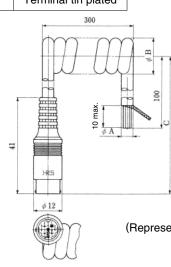

Part No.	HRS No.	No. of contacts	No. of conductors of cable	Remarks
HR12-10LA8PS1065(71)	112-3040-0 71	8	8-conductor (Shielded)	Straight cord Terminal tin plated

Remarks : Dimensional tolerance of ± 0.05 mm is recommended for the board arrangement.

Receptacle(Right Angle Dip)

(Note)

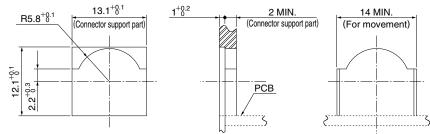

This product should be mounted on the panel to hold with the interface portion, as shown in the panel mounting hole dimension diagram.

When it is difficult to press the connector into the panel, we recommend using the attached stopper plate HR12-10R-SP(71) (112-0507-0 71) as described on page 7.

Terminal Arrangement and performance

Shell size	10 sizes				
Terminal arrangement					
No. of contacts	5	8	10		
Withstand voltage	300V AC for 1 minute				
Rated current	1A				
Insulation resistance	200MΩ or more at 250V DC				
Contact resistance	$30m\Omega$ or less (excluding cable conductor resistance)				

Shell size	14 sizes	
Terminal arrangement		
No. of contacts	20	
Withstand voltage	300V AC for 1 minute	
Rated current	1A	
Insulation resistance	200mΩ or more at 250V DC	
Contact resistance	30mΩ or less (excluding cable conductor resistance)	

Remarks : 1. The above figures show the receptacle pin inserts as viewed from the mating side.

- 2. Withstand voltage shows the testing voltage.
- 3. Contact resistance is as measured at 1A DC.

Precautions

This product series uses silver plated contacts. Silver reacts easily to exposure to sulfur gas so the below conditions may cause tarnishing.

- Dusty environments
- •Area with a high concentration area of gases such as sulfur dioxide gas, hydrogen sulfide gas, nitrogen dioxide gas and so on. Example; In close proximity to factory exhaust, automotive emissions, etc.
- ·Close to heaters, or in other areas marked by extreme temperature differences or high humidity.
- •Close to rubber products includes rubber adhesives.

The Electrical connection is not affected by tarnishing on a silver surface due to the wiping effect of the contact pins.

Storage

Packing state; Packed in original packing or equivalent container

Temperature -10 to +60℃

Humidity 85% Max

(It is recommended that the product be stored in an area of normal level of temperature and humidity, and free of any temperature fluctuation)

Please use this products within 6 months of delivery.

(After 6 month, please check the solderbility before use)

"Storage" means long-term storage of the unused products in sealed packaging, prior to assembly to PCB.

5 The characteristics and the specifications contained herein are for reference purpose. Please refer to the latest customer drawings prior to use. The contents of this catalog are current as of date of 08/2018. Contents are subject to change without notice for the purpose of improvements.
