

Advisory – PCN UPDATE

SUBJECT: *Additional manufacturing and testing capacity has been added in the Vishay Kaohsiung, Taiwan facility for selected LVM Power MOSFETs*

Dear Valued Customer:

As part of the Vishay Siliconix commitment to delivering customers with reliable and cost-effective products, we are announcing the expansion of assembly and test capacity in our trade-friendly facility in Kaohsiung, Taiwan on selected LVM Power MOSFETs. The package types included are the TSOP6 and SSOT23. Power MOSFETs shipped from this facility will be tariff-free. This advisory is intended for US based customers and orders.

To take advantage of this tariff-free initiative, customers will need to order the parts with a new ordering prefix code “_BE3” (instead of our standard _GE3). The table showing the current and new ordering codes can be found on page 2, 3 and 4 of this document.

There will be no effect on the quality, reliability, or performance. Shipments from the new location area available to start from May.

This is an advisory and does not require your response. Qualification results and samples, should they be required will be available.

For additional information, please contact your local Sales representative or the undersigned below.

Sincerely,

Vishay Siliconix
Senior Manager, Product Marketing
