

Data Sheet
9-261 Spannfix Base

Part number 9-261

The small vice SPANNFIX with the types 9-205, 9-215 and 9-220 as well as the VARIO combinations 9-251, 9-252, 9-253, 9-254, 9-255, 9-256, 9-257 simplifies the operations in precision engineering, in laboratories, in mechanical and electronical workshops as well as in different medical areas.

Furthermore the SPANNFIX bases enable an exact and secure adjustment in all directions, e.g. of measuring instruments, of monitors and of observation cameras.

For these purposes the types 9-251, 9-261, 9-262 und 9-281 are available.

The high grade powder-coated aluminium casting and the surface-refined steel parts are the guarantee for a long life.

Article description SPANNFIX Base for permanent mounting with ball joint and threaded stud M 12 x 1.5

Characteristics:

Practice tip Size of base 150 x 105 mm
For an exact and secure positioning of optoelectronic measuring instruments, monitors and observation cameras
black colour see 9-261 SW

Clamping pressure -
Clamping capacity -
Clamping depth -
Jaw width -

Weight 0.800 kg

Customs Tariff Number: 82057000

EAN Number: 4250838511469
