

<b>EAN:</b>	4013288220462	<b>Size:</b>	230x60x13 mm
<b>Part number:</b>	05033629001	<b>Weight:</b>	24 g
<b>Article number:</b>	Kraftform Kompakt VDE 3067 i TORX® SB	<b>Country of origin:</b>	CZ
		<b>Customs tariff number:</b>	82054000

- Kraftform Kompakt VDE interchangeable blade for TORX® screws
- Insulated, individually tested as per IEC 60900
- Blades made of stainless steel to prevent extraneous rust
- Vacuum ice-hardening provides the required hardness and strength
- 9 mm hex drive with with entry chamfer
- Individually tested

VDE stainless blade for the Kraftform Kompakt handle/blade system for lightning-fast blade changes without special tools. Individually tested tools as per IEC 60900. Individually tested at 10,000 V for safe working at the approved voltage of 1,000 V. Wera's stainless steel tools are vacuum ice hardened and therefore have the hardness and strength properties required for screw connections. Industrial use is possible without restrictions.

Kraftform Kompakt

Screw stainless steel together with stainless steel!

Solution to the rust problem: screwdriving stainless steel together with stainless steel! Wera stainless steel tools are manufactured out of stainless steel so unsightly rust can be avoided.

Individually tested

Our screwdrivers are tested for dielectric strength under a 10,000 volt load to make sure that their most important property, their insulation, has been exhaustively tested. Each individual Wera VDE screwdriver is subjected to this test to guarantee safe working up to 1,000 volts.

Blades for handle

The VDE-insulated Kraftform Kompakt stainless blades are suitable for the 3817 VDE Stainless handle.

Handle/interchangeable blade system – Kraftform Kompakt VDE

The handle/interchangeable blade system allows rapid exchange of the blades required for a wide range of applications.
