

MOTIP Dust Remover

Ord.-no.: 090408

Technical Information

Remove dust and dirt from hard-to-reach places easily with MOTIP Dust Remover. It's compatible with any kind of material. MOTIP Dust Remover is composed of an ecological and 100% non-flammable gas, with a low Global Warming Potential. Useful for eliminating dust and moisture from any mechanism or part that does not allow the use of solvents. It's particularly suitable for removing dirt from precision instruments, laboratory equipment, digital camera sensors (CCD and CMOS), optical fibres, optical devices and cameras. The attached straw makes it possible to reach the most hidden areas. MOTIP Dust Remover has a powerful, directed jet-spray. Suitable for 360° use.

Quality & properties

- Non-flammable
- Very effective
- Powerful, directed jetspray
- Leaves no residue
- Inodorous
- User-friendly

Physical & chemical data

- Base: Solstice 1234ze
- Colourname: Transparent
- Surfaces: Precision Instruments, Dashboards, Computers, Printers, Clocks, Faxes, Cameras, Rails, Audio and video equipment, Keyboards, Printed Circuit Boards, Mobile Phones
- Minimum Working Temperature: 10 °C
- Maximum Working Temperature: 25 °C
- Vapour pressure: 4271/20 bar
- Flash point: n.a. °C
- Relative density: 1.23 g/ml
- Storage stability: 10 years
- Content: 250 ML

How to use

- Before use, carefully read the directions on the packaging and act accordingly.
- The aerosol should have room temperature.
- Best processing temperature 10 to 25°C.
- During treatment, the aerosol should be in straight position.
- Repeatedly, briefly press the nozzle.
- When pressure falls (the aerosols feels cold), interrupt the treatment in order to restore the pressure in the aerosol.

Environmentally sound

European Aerosols is committed to apply formulations without restricted or critical ingredients and to achieve best possible performance. The caps and packagings are made of recyclable material.

Disposal

Only the completely emptied cans should be put into the recycling skip or appropriate container for reclaimable refuse. Cans which are not empty should be disposed off as "special refuse".

Marking/Labeling

All products made by European Aerosols comply with the actual labelling regulations according to Preparation Guideline 1999/45/EG. All aerosols correspond to TRGS 200 and TRG 300 as well as to aerosol guideline 75/324/EWG in the actually valid version.

For any further technical questions call our hotline from Monday to Thursday from 9 h a.m. to 3 h p.m. or on Friday until 12 h p.m.

As of November 24, 2021 – This release replaces all eventually earlier issued versions.
