

SupraPlus round sling with particularly robust hose sleeve

Made of polyester

SpanSet®

Application:

For the safe and regulatory-compliant lifting of loads, for daily use and extreme usage conditions.

Execution:

- Textile wire-reinforced hose sleeve
- Ribbed reinforcement of hose sleeve made of high-performance polyester
- Embossed weaving in of carrying capacity

Advantage:

- Compact, long service life thanks to low wrinkle formation and small support area
- Significantly higher usage time: double the resistance to wear and multiple resistance to cuts thanks to ribbed reinforcement
- Special hose sleeve prevents almost all damage or tearing
- Increased working safety thanks to embossed weaving in of carrying capacity

Delivery:

Other lengths deliverable on request.

Art. no.	77201 022
Brand	SPANSET
Manufacturer Part Number	25 104500038405
Length	1000 mm
Material thickness	8 mm
Load-bearing capacity (single direct)	2000 kg
Material	PES - Polyester
Colour	Green
EN standard	1492-2
Approval mark	GS certified safety
Gross Weight	0.493 kg
Product Group	775
