Coming soon: Emergency Stop Buttons with new look

Dear Sir and Madam,

You might have heard that the EN ISO 13850 „Emergency Stop-Function – Design Principles“ has changed. According to this directive, the direction arrows labelled on the actuator need to be of the same color as the actuator itself. We will follow this requirement and modify the front of our Emergency Stop Buttons as above from August 2017 on. Following items are affected:

Basic types Emergency Stop/Emergency Off:

M22-PVT	263467
M22-PVLT	263469
M22-PVS	216879
M22-PVS-MS	216880
M22-PVS-SA	104826
C22-PVT-K..	

Combination types:

M22-PVT-GVP50	171880
M22-PVS/K01	216514
M22-PVT-K01-BVT	132624
E-PKZ01-PVT	281636
M22-PVS/KC11/IY	216523

Stop-Buttons:

M22S-PVT	271499
M22SG-PVT	150649
M22Y-PVT	147403
M22S-PVLT	271540

The types, article numbers and prices remain unchanged. Please take care to inform our customers about these changes. Should there be a need for buttons with white arrow labels please take in consideration that these will be available for order until July 2017. On August 1st we will start our transition phase and deliver articles with red indication.

If you have any questions please do not hesitate to contact the respective Product Management Team in Bonn (phone +49 228 602 2334).

Kind regards

Bonn, May 2017
