Product Change Notification

Dear Customer,

Please be advised that product group 18-xxxx (Terminal Pins) are now being plated with a dull plate finish. This does not affect the spec of the product. The reason for the change is due to that this type of plate finish offers better solderability of the pins and prevents tin whiskers.

Vero Technologies has a policy of constant research and development and reserve the right to change specifications without notice as stated in our standard terms and conditions of sale.

If you have any queries please do not hesitate to contact us

Kind regards

A handwritten signature in blue ink, appearing to read "John Morton".

John Morton
Managing Director
