

Ferroplex combination hammers

Nylon and steel impact surfaces

HALDER

Application:

FERROPLEX is the 2-in-1 combination hammer for those wanting the distinct benefits of both a steel hammer and a soft-face hammer. For general assembly, maintenance and servicing work.

Execution:

- Hammer head made of high-quality heat-treated steel, inductively hardened impact surface
- Replaceable hammer insert made of special nylon with maximum strength, no splintering
- Shatterproof steel tube handle and ergonomically shaped, non-slip rubber handle

Advantage:

- gentle on joints, low noise
- Resistant powder coating protects against corrosion

Art. no.	51224 901
Brand	HALDER
Manufacturer Part Number	3677.035
Head diameter	35 mm
Length of head	125 mm
Length	295 mm
Recoil-free	No
Material of long handle	Steel
Impact insert, interchangeable	Yes
Handle fastening	Welded
Weight	0.8 kg
Gross Weight	0.833 kg
Product Group	521

EAN
