Factory Change Notice

Chip Monolithic Ceramic Capacitor: GRM32 series High Dielectric Constant Type

Dear Valued Customer,
Thank you very much for your great support and business with Murata.
We would like to inform you about the Factory Change of Chip Monolithic Ceramic Capacitor (MLCC),
GRM32 series High Dielectric Constant Type.

Please review and return this notification with your acceptance by the date below.
Your understanding and support are highly appreciated.

1. Applicable Product / Affected Murata Part Number:						
Size:	EIA (EIA-J) Dimension (LxW) Murata Type 1210 (3225) 3.2mm x 2.5mm GRM32 series					
Temperature Characteristics: Code (Public Standard Code) B1 ,B3(2B4), R1(2R1)···JIS standard R6(X5R), C6(X5S), C8(X6S), D8(X6T), R7(X7R), C7(X7S), D7(X7T), E7(X7U)···EIA standard						
Rated Voltage: DC 100V and less						
Please refer to the attached Appendix for Customer P/N and Murata P/N cross-reference.						
2. Current and New Factory:						
	<table border="1"> <thead> <tr> <th>Current</th> <th>New</th> </tr> </thead> <tbody> <tr> <td>Fukui Murata Mfg. Co., Ltd. (Murata Japan)</td> <td rowspan="2">Murata Electronics Singapore (Pte.) Ltd.</td> </tr> <tr> <td>Izumo Murata Mfg.Co., Ltd. (Murata Japan)</td> </tr> </tbody> </table>	Current	New	Fukui Murata Mfg. Co., Ltd. (Murata Japan)	Murata Electronics Singapore (Pte.) Ltd.	Izumo Murata Mfg.Co., Ltd. (Murata Japan)
Current	New					
Fukui Murata Mfg. Co., Ltd. (Murata Japan)	Murata Electronics Singapore (Pte.) Ltd.					
Izumo Murata Mfg.Co., Ltd. (Murata Japan)						
3. Reasons / Background:						
In response to the MLCC demand increase from overseas market, we would like to restructure our factory organization and production. We are going to respond to this challenge by expanding production at Murata Electronics Singapore and ending production of the GRM32 series High Dielectric Constant Type in Japan. The GRM32 series products are produced with exactly the same design, machine, raw material and process control in Japan and overseas factory, so quality and electrical characteristics of Murata Singapore are identical to those of Murata Japan.						
4. Transfer Schedule:						
After your acceptance, we will proceed with this change (starting sequentially with the 4.7uF item).						
5. Response Date:						
Please return this notification with your acceptance and/or inform us of any requests by September 30, 2015.						
6. Others:						
As for new factory's products, they will be labeled as "MADE IN SINGAPORE". This Factory Change Notice will be applied to your company worldwide. We hope to have your cooperation and understanding in this matter. Thank you.						
7. Contact Window:						
Please contact the local Murata Sales office in your area if should you have any questions or concerns.						

Yours very truly,

The notification of acceptance
