### **Technical data**

| Basic data                         |                                                    |
|------------------------------------|----------------------------------------------------|
| Series                             | MLC 500                                            |
|                                    | Transmitter                                        |
| Device type                        | 2x BT-IP swivel mount                              |
| Contains                           |                                                    |
| Application                        | Hand protection                                    |
| Functions                          |                                                    |
| Functions                          | Range reduction<br>Transmission channel changeover |
| Characteristic parameters          |                                                    |
| Туре                               | 4 , IEC/EN 61496                                   |
| SIL                                | 3 , IEC 61508                                      |
| SILCL                              | 3 , IEC/EN 62061                                   |
| Mission time T <sub>M</sub>        | 20 years , EN ISO 13849-1                          |
|                                    |                                                    |
| Protective field data              |                                                    |
| Resolution                         | 30 mm                                              |
| Protective field height            | 600 mm                                             |
| Operating range                    | 0 8 m                                              |
| Optical data                       |                                                    |
| Synchronization                    | Optical between transmitter and receiver           |
| Light source                       | LED , Infrared                                     |
| LED light wavelength               | 940 nm                                             |
| Transmitted-signal shape           | Pulsed                                             |
| LED group                          | Exempt group in acc. with EN 62471:2008            |
|                                    |                                                    |
| Electrical data                    |                                                    |
| Protective circuit                 | Overvoltage protection Short circuit protected     |
| Performance data                   |                                                    |
| Supply voltage U <sub>B</sub>      | 24 V , DC , -20 20 %                               |
| Current consumption, max.          | 50 mA                                              |
| Fuse                               | 2 A semi time-lag                                  |
| Inputs                             |                                                    |
| Number of digital switching inputs | 1 Piece(s)                                         |
| Switching inputs                   |                                                    |
| Туре                               | Digital switching input                            |
| Switching voltage high, min.       | 18 V                                               |
| Switching voltage low, max.        | 2.5 V                                              |
| Switching voltage, typ.            | 22.5 V                                             |
| Voltage type                       | DC                                                 |
|                                    |                                                    |

### **Dimensioned drawings**

All dimensions in millimeters

### MLC safety light curtains pre-mounted in the IP protective tube

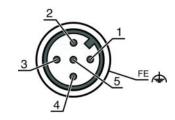

- a Connection cable
- b Mounting brackets for mounting
- c End caps, stainless steel V4A
- d MLC transmitter
- e IP protective tube
- A Total height incl. mounting brackets = 820 mm
- L Spacing of drilled holes for mounting brackets = 800 mm

HPFN Effective protective field height = 600 mm

### **Electrical connection**

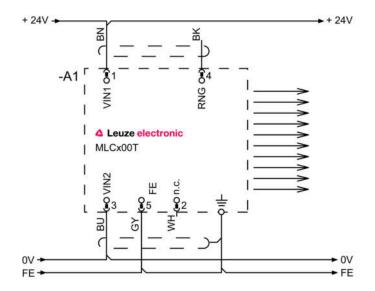

| Connection 1       |                      |
|--------------------|----------------------|
| Type of connection | Cable with connector |
| Function           | Machine interface    |
| Cable length       | 15,000 mm            |
| Sheathing material | PVC                  |
| Cable color        | Black                |
| Wire cross section |                      |
| Thread size        | M12                  |
| Туре               | Male                 |
| Material           | Metal                |
| No. of pins        | 5 -pin               |
| Encoding           | A-coded              |
| Connector housing  | FE/SHIELD            |

| Pin | Pin assignment | Conductor color |
|-----|----------------|-----------------|
| 1   | VIN1           | Brown           |
| 2   | n.c.           | White           |
| 3   | VIN2           | Blue            |
| 4   | RNG            | Black           |
| 5   | FE/SHIELD      | Gray            |

### **Circuit diagrams**

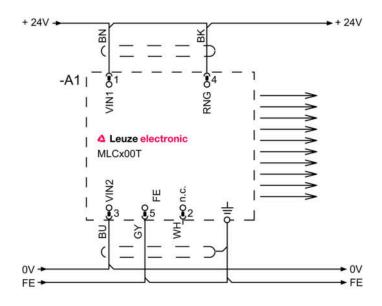

### Transmission channel C1, reduced range

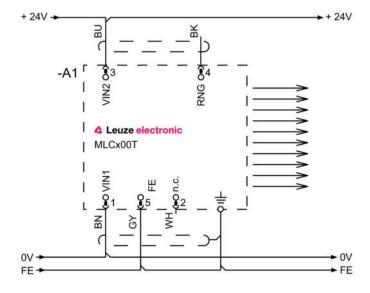

- VIN1 = +24 V
- 3 VIN2 = 0 V
- RNG = 0 V or open

### Transmission channel C1, standard range

- VIN1 = +24 V
- 3 VIN2 = 0 V RNG = +24 V

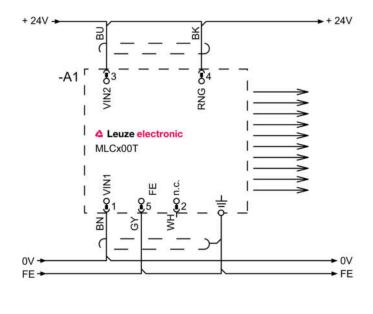

### Transmission channel C2, reduced range

- VIN1 = 0 V
- 3 VIN2 = +24 V
- RNG = 0 V or open

### Transmission channel C2, standard range

- 1 VIN1 = 0 V
- 3 VIN2 = +24 V 4 RNG = +24 V

### **Operation and display**

#### **LEDs**

| LED | Display                                       | Meaning                                       |
|-----|-----------------------------------------------|-----------------------------------------------|
| 1   | Off                                           | Device switched off                           |
|     | Red, continuous light                         | Device error                                  |
|     | Green, continuous light                       | Normal operation                              |
| 2   | Green, flashing, 10 s long after switching on | Reduced range selected by the wiring of pin 4 |
|     | Off                                           | Transmission channel C1                       |
|     | Green, continuous light                       | Transmission channel C2                       |
