#### **Dimensioned drawings**

All dimensions in millimeters

#### Calculation of the effective protective field height HPFE = HPFN + B + C

HPFE Effective protective field height = 1828 mm

HPFN Nominal protective field height = 1800 mm

- А Total height = 1866 mm 19 mm
- В
- С 9 mm

Effective protective field height HPFE goes beyond the dimensions of the optics area to the outer borders of the circles labeled with R. R

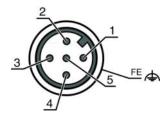

### **Electrical connection**

| Cable color        | Black                                           |  |
| Wire cross section | 0.14 mm <sup>2</sup>                            |  |
| Type of stranding  | Pair stranding (twisted pair)                   |  |
| Thread size        | M12                                             |  |
| Туре               | Female                                          |  |
| Material           | Plastic                                         |  |
| No. of pins        | 8 -pin                                          |  |
| Encoding           | A-coded                                         |  |

### **Operation and display**

#### LEDs

| LED | Display                 | Meaning             |
|-----|-------------------------|---------------------|
| 1   | Off                     | Device switched off |
|     | Red, continuous light   | Device error        |
|     | Green, continuous light | Normal operation    |

#### Suitable receivers

| Part no. | Designation           | Article                          | Description                                                                                                                                                           |
