

17-Aug-2022

PCN #: P-22-023184

Subject : AMPLIMITE

Description of Change : Installation of new, dual robot retention clip loading machine to replace current robot for same purpose.

Products with Customer Agreements will be produced using existing retention clip loader until notification agreement time has expired.

All products that are not on Customer Agreement can immediately be assembled using either exiting clip retention loader or new clip retention loader.

Reason : Product improvement. Current robot is reaching end of life and requires continuous maintenance, thus affecting production. Placement and inspection of retention clips is identical from old to new process.

Key Dates :

The dates on the product change notification (PCN) are best estimate dates determined at the time of issuance. Actual implementation dates may vary from such dates.

The change described in the PCN can be withdrawn, without notice, for any or all of the products identified on the PCN.

TE Connectivity corporate policy is for PCNs to be valid for 60 days and obsolescence notices to be valid for 180 days after date of issue.

For confirmation or additional information on the change, please contact the TE Connectivity Product Information Center at 800-522-6752 or your TE Connectivity Sales Representative.

Alert document created by IHS Markit based on content provided by TE Connectivity.
