

Antibacterial Cleaner & Sanitiser

Nilco Antibacterial Cleaner Sanitiser is a multi-surface cleaner for use in and around the home. The Antibacterial action kills 99.9% of household bacteria, moulds and viruses, including the flu virus.

Uses

The low odour/low taint formula is perfect for use in the kitchen on food preparation and storage areas such as fridges, worktops, chopping boards and sinks. Can also be used on door handles, wall and floor tiles, tables, bins, potties, changing mats, highchairs, play pens and any other non-porous surfaces to help stop the spread of bacteria and viruses.

Directions

1. Spray directly onto surface and leave for at least one minute. On stubborn deposits leave for a few minutes.
2. Wipe with a clean dry cloth.

Note: For optimum disinfection allow a 1 minute contact time. Not suitable for windows, mirrors, fabrics, painted or varnished surfaces. If in doubt test on a small inconspicuous area before general application. Always follow appliance manufacturer's cleaning instructions. Wash hands after use. As with all cleaners, avoid prolonged contact with skin. Avoid inhaling spray.

Product Reference

| Product Code | Available Sizes | Barcode |
|--------------|-----------------|---------------|
| NAB500 | 500ml | 5011807054146 |
| NAB001 | 1 Litre | 5011807054160 |

Physical Properties

| | |
|----------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Appearance | A free flowing pale green liquid with fast breaking foam and a mild alcoholic odour. |
| pH | 8-11 |
| Specific Gravity | 0.984-0.990 |
| Non Volatiles % m/m | <1.3 |
| Active Content % m/m | 13-13.5 |
| Flammability | Flash Point >40C This product is not combustible |
| Composition Data | Water, alcohol, glycol, surfactant, water softener, pH buffer, disinfectant and a green dye. |
