Fujitsu Keyboard KB400 PS/2 Input Device

Slim keyboard PS/2

The PS/2 Keyboard KB400 is a real eye-catcher on every desk. It is the perfect input device for our sophisticated desktop PCs and especially for other systems with a PS/2 interface. In highly secured facilities, the PS/2 interface allows the keyboard to function normally even if USB ports are completely locked down.

Usability

- Connects easily to every PC via standard PS/2 interface
- Slim and space saving design

Ergonomics

- Extraordinary flat and space saving design
- Stress free and effective use through high contrast keys and ergonomic key design
- Soft touch keys with slim key-technology
- Low noise

Reliability

- High quality and function stability
- Highest quality coupled with very good price/performance ratio

Modern production technology

- Abrasion-proof keys through laser technology to write the keycaps
- Fully automated production line

Keyboard KB400 PS/2
